

Can You Host a 1977 Meeting

We are rapidly taking reservations for meeting places for the 1977 calendar year. If you would like to host a Mid Atlantic Meeting, contact Bill Emerson immediately. We hope to have a completed list of meeting places for the year printed in our January or February newsletter.

Daconil 2787[®] Flowable Fungicide

DACONIL 2787, the broad-spectrum turf fungicide, has proven highly effective against Helminthosporium leaf spot, dollar spot, large brown patch, and red thread. Why use two fungicides when DACONIL is the only flowable fungicide that controls all of these major turf diseases.

Flowable DACONIL 2787 is easy to mix. Just pour it into the spray tank. It disperses quickly... like water with water. Requires only a minimum of agitation. Excellent *turf tolerance* permits use even in *hot, humid weather*. DACONIL 2787 has been used on over 25 species and varieties of grass, with no injury. Provides excellent coverage, exceptional residue protection.

For more information, contact your turf distributor.

Definitions

The dictionary defines "exit" as a passage or a way out.

OSHA defines it as "that portion of a means of egress which is separated from all other spaces of the building or structure by construction or equipment as required in this subpart to provide a protected way of travel to the existing discharge."
