

WAYNE'S PLACE

This summer has been, so far, a pretty good summer for us all. I've had a chance to talk to many "supers" in the last two weeks and the general comment is that the area courses all look good and most guys are having one of their best years. I've also been out and playing golf a little more this year, and I had a chance to play over at Indian Springs in the Annual Heroes Incorporated Tournament. If all the courses look like Herb Hienliens, we're in tremendous shape. Both the Big Chief and the Valley courses were beautiful. My only wish now is that we could just skip over our usual August weather, Amen?

August 3rd, 4th and 5th this year are the dates for the annual Metropolitan Horticulture Show and Plant Clinic. This show is sponsored by the Maryland, Virginia and D.C. Extension Services. In the past the Washington Area Superintendents have helped by manning the Turf Question and Answer booth, and we have been asked to help again. If any of you out there can help this year please contact Lester Tanner for dates and times. It will be held at Montgomery Mall this year.

Diamond Shamrock

Everything you need to control diseases and weeds in turf and ornamentals.

Ten turf diseases and almost 100 kinds of weeds yield to the Diamond Shamrock Pro-4 turf system. One broad-spectrum fungicide. One preemergence herbicide. One postemergence broadleaf herbicide. One postemergence grassy weed herbicide. That's Diamond Shamrock Pro-4.

DACONIL 2787[®]. The new chemistry fungicide. And now it's a flowable, as well as a wettable powder.

DACTHAL[®] preemergence herbicide controls *Poa annua*, crabgrass and 15 other weeds. Available in two formulations: wettable powder and granules.

DACAMINE[®] postemergence herbicide. Non-volatile 2,4-D. Kills more than 70 broadleaf weeds.

DACONATE[®] 6 postemergence herbicide. The organic arsonate with a high-quality surfactant already mixed in.
