## 1982 MID-ATLANTIC A of GCS BOARD OF DIRECTORS

*L to R — Paul O'Leary, Mike Larsen, Ben Stagg, Bob Lambert, Ken Braun, Gerald Gerard, Lee Dieter, Mike McKenzie, Mike Claffey, Paul Barefoot — Missing, Buck Whetsell.*

## Presidents Message

Congratulations to everybody for Trufgrass 82. The educational sessions, the trade show, the facilities and the fellowship were the best ever. For those of you that abstained, you really missed a good one.

Since Lou White was unable to attend the banquet to receive the Distinguished Service Award, presented by the Mid-Atlantic, I was given the privilege of presenting it to him. On January 20th, Mike McKenzie, Bill Neus and I ventured to Salisbury armed with the plaque, a bucket of ice, four hi ball glasses and a fifth of Black Jack. We were pleasantly surprised to find Lou walking around with the use of a cane only, in the slippery snow.

During our visit and lunch, we presented Lou with his plaque and this verse:

At our banquet I received this plaque,  
For a man that was home nearly flat on his back.

Kenny rambled on and on with a lot of flak,  
About this man who receives this plaque.  
He said things about you that were fine,  
In the presence of Louis Goldstein.  
And to all those accomplishments,  
I would like to add,  
You're the best darned friend, I ever had.  
Louie, a toast to you with the Jack that's black,  
With tremendous pride,  
I present to you this plaque.

Best wishes to George Thompson, on his new position at the Country Club of North Carolina. Though we hate to see him go, we know he will become the Mid-Atlantic's Ambassador to the south.

In closing "Let's make 1982 the year to have fun and enjoy your association."

J. Ben Stagg

## MARCH 9th MEETING SPRINGFIELD GOLF AND COUNTRY CLUB

Springfield G. and C.C. was opened for play in the summer of 1960. The course was designed by Eddie Ault and constructed by home developer Edward Carr. The course measures 6259 yards from the white and 6475 yards from the blue tees, par is 71. The greens are composed of C-1, C-19, Penncross and Poa, average size is 5200 sq.ft. They are mowed 6-7 times a week at 3/16". The tees, collars and fairways are composed of many different Perennial ryegrasses and some Poa. The tees and collars are mowed at 11/16", 3-4 times a week and the fairways at 13/16", 3 times a week. Irrigation is automatic and is fed by 2 lakes comprising about 7 acres. The main problem we face at Springfield is the amount of play which, in the last two years has averaged 50,000 plus rounds per year.

Our host, Walter Montross has been with Springfield G. and C.C. for the past 3 years. Before that he worked as an assistant at Washington G. and C.C. and at the U.S. Naval Academy Golf Course. He graduated from the Institute of Applied Agriculture at the University of Maryland in 1975. He is recently married to Linda Sharrard.

### Program for the Day

Golf: Anytime after 10:00 a.m.  
Lunch: available (cash or charge)  
Cocktails: 6:00 to 7:00 p.m. (cash bar)  
Dinner: 7:00 p.m. (\$13.50)

Directions to the club: I-95 south to Springfield exit. Take Keene Mill Road (Rt. 644) West 3 miles, club is on the left.

## MEMBERSHIP

### New Members:

The following names have been presented to the Board of Directors for approval as members of the Mid-Atlantic.

Ken Combs, Leisure World Corp.  
Jeff Yingling..... Class G  
Danial Rozinak, Swan Creek C.C..... Class B  
Reclassification — Lester Tanner..... B to A  
Chip McDonald..... F to A

## A LETTER TO THE MEMBERSHIP

Fellow members:

Thanks to each and every Mid-Atlantic member for your support during the recent election process of the GCSAA. Leading up to and during the recent conference in New Orleans your advice and council was very helpful.

I especially thank my good friends Ron Hall, voting delegate, Mike Larsen, alternate and Angie Cammarota, our political "Godfather", for their hand work on my behalf. I assure you they didn't leave a vote unturned.

I'm sorry to report to you that inspite of all our efforts it just wasn't in the cards this time. We finished third in a five candidate race. So to incoming GCSAA President James Wyllie and our new Executive Committee we say good luck and much success in the coming year and if there's anything we can do for the good of GCSAA, call on us.

Your friend and fellow member,  
Bill Emerson

## ODDS AND ENDS

The 1982 Match Play tournament will begin next month at Hogs Neck Golf Course. Anyone interested in participating in this years tournament, please contact Paul O'Leary, Golf Chairman.

On January 22, 1982 the Mid-Atlantic said Good Bye to long time member and past President George Thompson. George has left Columbia C.C. to take the position of Golf Course Superintendent at the Country Club of North Carolina. Ken Ingram has returned to Columbia to take the Supt. position left vacant by George.

The University of Maryland Extension Service is no longer recommending the planting of oak trees, particularly the white oak. White oak, the Maryland State tree, is a preferred food of the Gypsy Moth. The Gypsy Moth will also feed on alder, apple, birch, box-elder, hawthorn, larch, linden, mountain ash, poplar, black spruce, sumac and willows. Trees that the Gypsy Moth will avoid are Tulip poplar, sycamore, ash, catalpa, dogwood, hackberry, honey locust, horse chestnut, persimmon, walnut, osage orange, mulberry, holly, arborvitea and juniper.

Scholarship winners at Turfgrass 82:  
GCSAA Scholarship to Jim Kelley, Institute of Applied Agriculture.  
Parker Shirling Scholarship to Elizabeth Hersh.

## Kemper Open

The 1982 Kemper Open will again be held at the Congressional C.C. The tournament will be the week of June 1-7. GCSAA members and their families will again be given complimentary entrance to any practice or tournament round upon the presentation of their membership card at the will call trailer.

## Vandalism of Courses Varies Around County

By Joe Gambatese  
Special to the Journal

Vandalism has been the bane of golf clubs in this country almost from the day John Reid returned from a trip to Scotland in 1888 and built three holes in Yonkers, N.Y.

Golf course vandalism is a problem usually met with a shrug of the shoulders because it involves damage over a large, wide-open area and is hard to prevent despite fencing and security guards. And even when a culprit is apprehended, there's usually no punishment.

That may change if vandals like the one caught at Crofton CC come before a judge like George M. Taylor in Anne Arundel County.

An 18-year-old high school graduate, son of a Crofton community leader whose home abuts the gold course, was apprehended after he drove a car over a half-dozen greens, tees and fairways during the night.

William Berkshire, a part owner of Crofton, said that vandalism and thefts are a constant problem and estimated the damage in this particular incident at \$35,000.

The state's attorney's office recommended that the youth pay \$3000 at the rate of \$50 a month as reimbursement for damage, which also involved an athletic field and lawns of two private homes.

Judge Taylor, however, rejected the recommendation. He put the youth on four years' probation and ordered him to pay \$15,000 in \$250 monthly installments.

A random survey of county golf clubs and courses confirmed that vandalism continues to be a problem, although in varying degrees. Some are hit frequently and severely while others have only minor problems.

The vandalism ranges from theft of flagsticks and tee markers and damage to ball washers to severe and costly damage to putting greens.

Bob Shields, course superintendent at Woodmont and 1965 president of the Golf Course Superintendents Association of America, says: "Vandalism

is such a constant problem that we inspect our two courses every morning before the greens are cut for any damage that might need repair."

Woodmont has suffered greens on which vehicles have been driven or holes dug with a shovel, golf carts driven into a pond, damaged ball washers, stolen flagsticks and holes cut into the perimeter fence.

At Montgomery Village they have to take the flagsticks in every night to prevent thefts. "We patrolled the course all night on Halloween, chasing kids off," said owner Jack Doser.

Two public courses; Northwest Park and Redgate, have problems with damage from dirt bikes running on the course.

"It's unbelievable," says Redgate pro Brooks Gerardi. "Somebody's even been driving a jeep on the course. Our biggest problem, however, is kids walking across the course and stealing flags and tee markers."

Unbelievable could also describe what happened at Bretton Woods. According to course superintendent Gerald Gerard Jr., someone dug a hole 18 inches deep and three feet in diameter in the 15th green and also dug up pieces of turf "which we replaced like a jig-saw puzzle."

That's not all. "We had a horse trample our practice green," he added. "Another time, someone cut down a tree which had a three-inch trunk. Last spring, someone dug up and stole 16 azalea bushes."

At Indian Spring, some greens have been dug up with a hand tool and obscene words written on them with spray paint.

Eddie Ault of Silver Spring, a course architect who has been called on to repair some of the damaged courses, says it can cost from \$1500 to \$4000 to repair a green that has been compacted by the weight of a heavy vehicle.

"It takes more than just replacing the sod," he explains. "The compaction can go down 10 or 12 inches and has to be dug out."

On the positive side, other public courses, Laytonsville, Falls Road, Needwood and Sligo Park, reported no problems. "I live next door to the course," said Dave Walker, Laytonsville's pro-manager, "and my superintendent lives in the middle of it." That's one way to prevent problems.

Montgomery CC has had no problems since it put up a fence. Other clubs checked, including Manor, Burning Tree, Columbia, Congressional, Chevy Chase and Kenwood, all feel "lucky" to have gotten off with only minor incidents of vandalism, if any.
