PRESIDENT'S MESSAGE

Our first meeting at Poolesville Golf Course and Potomac Valley Lodge was a huge success. I would imagine anyone who played golf there for the first time was pleasantly surprised with the layout and the condition of the golf course.

I also enjoyed the western-style dinner and hospitality of the Potomac Valley Lodge very much.

The one sour note of the day was in having to accept the fact that after all the reminders we have given to our membership about making reservations in advance to assist our hosts in preparing for their meetings, we still had to give out 16 "pink slips." We, as professionals, should be more considerate of our peers and make these reservations by the Friday before our meeting. Let's try to let all the clubs know that we understand their needs for preparation by being prepared enough ourselves to make our reservations in advance.

See you at the Hillendale Country Club in Phoenix, Md. on April 9.

Nick Vance, C.G.C.S.
 President MAAGCS

MEMBER NEWS

Bruce Steinmiller of Cambridge Country Club and his wife Linda had a son, Micah David, on December 17. Congratulations!

Dr. J. Kevin Mathias of the University of Maryland's Institute of Applied Agriculture, received the Agriculture Alumni Association's Excellence in Instruction Award at the association's annual banquet on March 12.

In Memoriam

Wallace Stedding passed away on January 27 at age 67. He had been superintendent at Westwood, Rolling Road and Carroll Valley CCs and a past member of MAAGCS. He will be missed by all.

 The Ex Stands For Excellence

**Why the EX STANDS FOR EXCELLENCE
 in professional turf care.**

- 1 Par Ex is the only professional fertilizer line containing IBDU, undisputedly the finest slow release Nitrogen source in the world
- 1 IBDU gives you the highest level of WIN, or Water Insoluble Nitrogen
- 1 IBDU delivers all of its Nitrogen in a single growing season
- 1 The Nitrogen release rate of IBDU is generally affected by only two factors: soil moisture and granule size
- 1 Slower release makes Par Ex products perfect for your Fall fertilization program
- 1 Fewer applications are required, labor costs are cut
- 1 The salt index of IBDU is the lowest of all commonly used fertilizer materials
- 1 IBDU fights nitrate pollution because very little Nitrogen is lost through leaching or volatilization
- 1 Choose from over 60 different product formulations

UM Fungicide Survey

Dr. Peter Dernoeden of the University of Maryland urgently requests the help of Mid-Atlantic superintendents. In order to solicit funds for research he needs data on fungicide use on golf courses in the area. Please fill out the enclosed form--anonymously. The address is printed on the reverse side so you need only fold, staple and stamp.
