

INDEX

- amending soils 138, 139
- annual bluegrass
 - anthracnose on 56-58, 59, 64
 - dollarspot on 53, 54, 59, 64
 - fairway management 64, 65, 102, 103, 105
 - Gaeumannomyces like disease on 64
 - in athletic fields 126, 127
 - plant growth regulator effects on 31, 33, 41, 42, 102-106
 - rooting 41, 102, 103, 105
- anthracnose 56-59, 64
- athletic fields
 - construction 126-128, 130, 135-139
 - diseases on 133, 134
 - establishment 130, 134
 - insects on 133, 134
 - maintenance programs for 126-134
 - playing surface 128, 129
 - soils for 129, 131, 135-139
 - weed control 133, 134
- bacterial wilt 35
- brownpatch 64, 65, 98, 112, 113, 115, 116
- calibration of sprayers 124, 125
- cholinesterase 122, 123
- clipping removal 64-66, 132
- colorant use on turf 129
- compaction 126, 129, 133, 135-137
- computer use in lawn care 70, 71
- crabgrass 27, 28, 32, 33
- creeping bentgrass
 - bacterial wilt 35
 - dollarspot on 53, 55, 60, 61
 - fairway management 64, 65
 - fertilization of 1, 3-9, 12-15, 65
 - irrigation 1
 - phytotoxicity of fungicides 60, 61
 - pythium blight on 63
 - snowmold control on 43-45
 - topdressing 14, 15, 92, 93, 98, 99
 - yellow tuft on 62, 100, 101
- cultivation 14, 16, 65, 92, 93, 96, 113-115, 126, 130, 133, 134
- cutworms 14, 16
- denitrification 67
- dioxins 72-74, 122
- disposal of pesticide containers 72-77
- dollarspot 49, 50, 53-55, 59, 65, 68
- drainage 96, 126, 129, 132, 135-138

fertilization
athletic fields 126, 129, 130, 136, 137
annual bluegrass 4, 65, 102
bentgrass 1, 3-6, 8, 9, 12-16, 65
effects on brown patch 98, 115, 116
effects on "Fusarium" blight 114, 115
effects on Helminthosporium melting out 49
effects on pythium 98
effects on yellow patch 36, 37, 116, 117
effects on yellow tuft 101
iron 4
Kentucky bluegrass 1, 2, 4
nitrogen 1-8, 14, 15, 64-66, 114-117, 126, 127, 129, 131, 132, 134
perennial ryegrass 4, 7
phosphorus 5, 6, 9, 12, 131
potassium 1, 2, 4-6, 7, 9, 13, 131
timing 1-6, 64, 65
fertilizers 1-9, 12, 13, 66, 67, 132
fine fescue 18-21, 25, 33, 100
frog eye diseases 112-117
"Fusarium" blight 68, 69, 112-114
fungicide
effects on anthracnose 56, 58, 59
effects on brown patch 116
effects on dollarspot 49, 50, 53-55, 59-61
effects on "Fusarium" blight 114, 115
effects on Gaeumannomyces 64
effects on Helminthosporium 46-49
effects on pink patch 68
effects on snowmold 43-45
effects on yellow patch 36, 51, 52, 116, 117
effects on yellow tuft 62, 101
of trees 83
fungigation 49, 50
Gaeumannomyces like disease 64, 69
growth regulators
color enhancement of 103, 104
growth suppression of 17-22, 103, 105, 106
effects on mowing requirements 20-22, 26
effects on roots 102, 103, 105
seedhead suppression of 17-26, 31, 41, 42, 102-104
timing 18-24, 41, 42, 102-104, 105, 106
uptake mechanisms 17-26, 105
weather effects on 19, 21, 22, 104, 105
growing degree days 41, 42
grub control 107, 111
pH of tank mix 110
timing 109, 110
Helminthosporium melting out 46-49, 64, 65, 68
herbicide container disposal 72-77

injury to lawn care workers 122
insecticides 107-111
insect control 107-111
irrigation
 automatic systems 96, 132
 effects on insecticide efficacy 110
 for "Fusarium" blight 114, 115
 of athletic fields 126, 127, 129-132, 135-137
 of bentgrass 1, 98, 99
 of Kentucky bluegrass 1, 2
 of thatchy turfs 92
 setting priorities for 96
 subirrigation 126
 timing 1, 2, 96

Kentucky bluegrass
 brown patch on 68, 112, 115
 dollarspot on 68
 fertilization of 1, 2, 4, 126
 "Fusarium" blight on 68, 112-117
 growth regulator effects on 18-21, 23, 24, 33
 Helminthosporium meeting out 46-49, 68
 irrigation of 1,2
 on athletic fields 128, 129
 overseeding 127
 phytotoxicity of fungicides 61
 pink patch on 68
 pythium on 68
 red thread on 68
 snow mold on 68
 stripe smut on 68
 yellow tuft on 100, 101

leaching 66, 67, 92, 136
liming 9-11, 137

model ecosystem 33, 34
mowing 17, 18, 20-22, 26, 96, 128, 130, 132, 133

open pan evaporation 1, 2
orchard grass 19

peat, use in soil mixes 131, 136, 138, 139
perennial ryegrass
 brown patch on 115
 fertilization 4, 7
 growth regulator effects on 19, 20, 25
 of athletic fields 128-130
 overseeding 127, 130
 pythium blight on 63

pesticides
 container disposal 72-77, 121
 disposal 121
 efficacy 118

- formulation 118-121
- human intake 122, 123
- label 118-121
- metering 76
- safety 76, 77, 118-123
- thatch effects on 92
- toxicity categories 119-121
- phytotoxicity
 - fungicide 60, 61
 - growth regulators 17-19, 33, 42, 102, 103
 - herbicide 33
- pink patch 68
- postemerge herbicide 27, 28
- preemerge herbicide 32, 33
- Pythium blight 63-65, 68, 98

- red thread 68
- red top 19

- safety in pesticide application 121
- Shigometer use on trees 83
- smooth brome grass 19
- snowmold 43-45, 64, 65, 68
- soil mixes 135-139
 - amendments 138, 139
 - depths 137
 - mixing 138, 139
- soil pH 9-11, 69, 129, 131, 137-139
- soil testing 9-13, 92, 96, 129, 131, 134, 137-139
- spray drift 124
- spray nozzle
 - selection 124, 125
 - maintenance 124, 125
- stripe smut 68
- sulfur 9-11

- tall fescue 19, 128, 129
- thatch 14, 15, 91-93
 - as a growing medium 91
 - control procedures 93, 113
 - earthworm effects on 91
 - effects on fertilizers and pesticides 92, 107, 108, 110, 111, 115
 - effects on irrigation 92
 - formation 91-93
- timothy 19
- topdressing
 - frequency needed 14, 15, 92, 98, 99
 - on athletic fields 126, 128, 130, 131, 133, 134, 136
- traffic
 - effects on growth regulators 17
- trees
 - adaptation to environment 78-81
 - adaptation to soil 78-81
 - cabling and bracing 84

- callous formation in 82, 83
- compartmentalization in 82
- competition with turf 78, 80
- drainage requirements 78-81
- injections 83, 84
- injuries 82, 83
- infections 82, 83
- insect damage 83
- maintenance practices 82-90
- selection 78-81
- wound dressing 83

- vertical mowing 65, 92, 114, 132
- volatilization of ammonia 66, 67

water use

- conservation 95-97
- planning 96, 97
- resources 94-97

- weed control 17, 18, 20, 22, 27-30, 32, 129, 133
- wetting agents 98, 99, 118, 119, 136
- winter protective covers 14, 16

- yellow patch 36-40, 51, 52, 69, 112, 113, 116, 117
- yellow tufts 62, 100, 101
