

Sharpening by Electricity

A FEW years ago this was a "new stunt," but now we have hundreds of Golf Clubs telling us they are glad to be through with the slow and tedious process of hand sharpening. Some clubs have tried sending their blades away for sharpening, but this means added expense, inconvenience and delays.

The Peerless Lawn Mower Sharpener

is a wonderful but simple invention that sharpens all makes of Hand Lawn Mowers, scientifically—quickly—perfectly; does the work as nothing else can. It grinds a perfect bevel and clearance—no more hard-running mowers—no more pulling and tearing of turf. Operated by $\frac{1}{4}$ H. P. Motor—attach it to your lamp socket.

Special Grinding Wheel Attachment for sharpening grass shears, sickles, scythes, axes, etc. Skate Sharpener attachment sharpens all makes of skates—including hockey. Earns money all the year 'round. Hundreds of Clubs—both large and small, use the Peerless Sharpener. Will save its cost the first season. Write for Catalog and list of users.
