

### Self-Adjusting

Smooth mowing is permanently assured with F. & N. TITAN Fairway Mowers by the patented F. & N. Self-Adjusting Device in the revolving reel. No attention or difficult adjustments by hand are necessary.

## The F. & N. "Quintet" Fairway Equipment

TO stand the gaff of rugged, heavy tractor service, mowers must be designed and built especially for this work. F. & N. TITAN Fairway Mowers are! They're large—drive wheels are 17 inches high. They stay in alignment—the interlocking frame and cutter bar assure this. They run easily, cut smoothly for an unusually long time—assured by gears cut from drop-forged, carbonized steel, running in oil-tight gear case. Also assured by genuine, heavy duty, Timken Roller Bearings; five tempered crucible tool steel blades. Least attention and care are required, too, because of the automatic gear shift, the patented self-adjusting device, and other superior and exclusive features that gladden the hearts of caretakers. Get all the facts. Write us today for catalog and prices.

Supplied in gangs of three or five for Fordson, Staupe, International and any other tractor, complete with attachments and flexible, all-steel frame.

The F. & N. LAWN MOWER CO. RICHMOND, IND. U.S.A.

## Prince Edward Island Bent

By CHARLES C. CHANDERLIN

PRINCE Edward Island Bent seed is grown under the supervision of the Seed Commissioner of the Dominion of Canada.

Prince Edward Island Bent seed is acclimated to withstand the severe winters. The 95% pure seed carries a minimum of weed seeds which means a material saving in labor for the hand weeding of a green. It is practically pure as to variety and will produce a turf uniform in color and texture.

The writer is a member of the Green committee of the Cedarbrook Country Club in Philadelphia, where many experiments have been made with this particular strain of bent. We started a nursery at Cedarbrook with the idea of using it in patching up our greens, when removing white clover patches and repairing damaged spots. After using the entire nursery, we found, very much to our surprise, that the nursery re-established itself.

Early last spring, we decided to use, when composting our greens, five pounds Prince Edward Island bent seed in the top dressing. The results were highly gratifying. This bent turf looks very similar to pure velvet bent.

Editor's Note.

Mr. Chandlerlin has been connected with the Philadelphia Seed Co. for seventeen years and is in charge of their grass seed department.

We will exhibit at the International Golf Show, Hotel Sherman, Chicago, March 12-17, 1928

### If You Would Keep GOOD TURF—Protect it!

YOU have spent much time and money to get those beautiful fairways and greens,—and well you know how easily they get damaged. It is not generally known, however, that dull lawnmower blades will pull and tear the turf, making bad spots easily noticeable.

The Peerless Lawnmower Sharpener is a simple but wonderful machine that sharpens all makes of Lawnmowers scientifically—quickly—perfectly; does the work as nothing else can. Grinds a perfect bevel and clearance—mowers cut like a pair of new shears.

Operated by a 1/2 H. P. motor—attach it to your light socket. Special Grinding Wheel for sharpening grass shears, sickles, scythes, axes, etc. Skate Sharpener Attachment included—sharpens all makes of skates. Will pay for itself the first season. Hundreds of Golf Clubs, large and small, use the Peerless. Write for Catalog and list of users.
