WHEN

Did YOUR playing season begin?

It is a matter of record that golf courses with Miller Engineered Drainage have extended their playing season three and four months. That pays.

Reduced maintenance cost is another result. We work cooperatively with architect or local contractor.

VUREA

(FLORANID)

A TESTED FERTILIZER
for **GOLF COURSES**

An EASY-TO-USE organic nitrogen grass food. Odorless, economical, efficient. Clean, water soluble, leaves no undesirable residues in soil. One pound per 1000 feet, applied every four weeks, is proper amount for putting greens and fairways. Gives grass thrifty fine color, and develops wear resisting turf.

NITROPHOSKA

is our concentrated complete (15-30-15) fertilizer. Urea and Nitrophoska supply greenkeepers with ideal plant-foods for successful sod maintenance. Sold by golf supply dealers. Write for special folder "Better Greens & Fairways," and ton prices.

The Seed Markets

(Continued from page 17)

same as that of last Fall. Cable crop reports as well as cable quotations from the principal producers of Europe on Red, Sheeps and Hard Fescue lead us to expect a normal crop but one slightly delayed on account of the heavy winter and cool Spring. The prices for European fescues will probably remain the same as have existed during the past two years.

Better Drainage

Fall is the time to put in the drainage you needed so badly this season. The heavy rainfall this spring caused washouts, which could only be repaired at heavy expense.

The Armco Culvert Manufacturers Association, Middletown, O., issue a series of bulletins covering every phase of the drainage problem and no Green committee chairman or greenkeeper who has work of this kind in view should be without them. These booklets are not catalogs, but are really engineering text books replete with chart and scale drawings of installations for all purposes.

It is very noticeable this year that the paving of highways adjoining our suburban golf courses, has thrown double the volume of water into the surrounding creeks, whereas in the old days a great part of this flood water used to seep away in the dirt ditches bordering the roadway. But now the paved roads have gutters and catch basins and the outflow from them presents new and unheard of problems to those in charge of golf courses and park grounds.

Write the Armco Company today for their literature and begin to plan for fall repairs and replacements.

Bent Grass

"For lawn purposes," writes Hiram F. Goodwin, Box A, Redford Sta., Detroit, Mich., "I believe I have an improved strain and I have several acres of a velvet type that gives promise. During the past two years I have developed an 18-hole course entirely with bent stolons, the sixty acres of fairway, in one year's time, forming a solid turf. For this purpose I used a vigorous strain that does not require so much watering and that does not form a fluffy turf. It is going into its third year now and I feel fully proves the value of this grass for fairways.

A Worm Killer That's Safe To Use

"ELECTRIC" Worm Eradicator is the most efficient worm killer I have ever used, and it does not burn or injure the turf. It is much handier to use than powder, and everything considered, it is much cheaper.—C. E. Sheetz, Supt. of Grounds, Carlisle Country Club, Carlisle, Pa.

ELECTRIC WORM ERADICATOR

is used on more than 700 golf courses. Safe, efficient and economical. We supply complete outfit for applying.

READE MFG. CO.

Established 1883

195 Hoboken Ave.

Jersey, N. J.

"My nursery has now increased to about one hundred and twenty acres, but by beginning small, I have been able to build up an organization and I can always follow up customers' plantings and assist them in securing best results as quickly as possible."

THE RIGHT TOOL SAVES TIME

COMB The Green

The flat, springy teeth of the True Temper Brume Rake will not injure the smooth surface of the green. They comb the grass and pick up all leaves and litter without injury to the tender grass roots.

The Brume Rake is light in weight. It is used like a broom. No back-ache.

The brand True Temper is burned in the handle to mark each rake as the best tool of its kind that can be made.
