

# What To See At Louisville

A BRIEF DESCRIPTION OF SOME OF THE EXHIBITS OF MACHINERY, SUPPLIES  
AND EQUIPMENT FOR GOLF COURSE MAINTENANCE

## Standard Manufacturing Company

Cedar Falls, Iowa

BOOTH NO. 43

THIS company will exhibit a complete line of Standard golf course accessories, especially featuring their new steel flagpole, hole rims, bag rack and tee markers, together with a variety of aluminum signs which they make particularly for golf courses.

The new Standard tee marker is an improvement over the one made last year, being furnished with an arrow to indicate the line of play. It is made of aluminum, is always bright and is light and easy to handle.

Greenkeepers will be particularly interested in the rust-proof Standard hole rim, which is cast in Aluminum in one piece. The rim is ab-

TEE MARKER

solutely smooth on the outside and is tapered slightly so that it can be removed easily and without injury to the grass. The pole socket is very deep and held in place by a special web reinforcing cast integral with the shell. Its open construction provides complete drainage when the flagpole is in place.

Mr. W. H. Voorhees, president and general manager of the company, will have charge of the exhibit.

## Ideal Power Lawn Mower Company

Lansing, Michigan

BOOTHS, NO. 9, 11 AND 13

THE Ideal Exhibit this year will be larger and better than ever before. Announcement of new low prices on Ideal "Bulldog" fairway mowers will be made for the first time at the Show.

A new light weight "Bulldog" Golf tractor will be on display with a new 3-unit Rough mower. This new rough cutter is built just for cutting roughs. It is not necessary to hoist up the rear of the units to get the correct height of cut—these special units cut at the correct height when in normal position. The
