Especially prepared for Golf Courses

Greens and Fairways should always be green—always fresh looking. But if the soil from which the grass roots get their food is worn out—if the plant food is not there in abundance,—woe to appearance.

Driconure—Nature's very own fertilizer—quickly restores grass vitality by supplying to the soil all the plant food elements that have been used up. Manure from high protein fed cows and peat moss, the greatest humus forming, moisture holding organic known. Dehydrating removes all weed seed. Also Driconure is 100% pure—it contains no filler or trash of any kind. Try it now—use it as you would any top dressing and watch results.

New Feature on Budd Blade

Engineers of The Budd Mfg. Co., Ravenna, Ohio, have recently embodied another new feature in the Budd "4 cutting edges" Blade that will strike a responsive note among mower users everywhere.

This feature is the new Tension plate, which fits between the mower bed plate and the Budd attachment, thereby allowing shorter mowing, an advantage many mower users have long wanted. Moreover, this Tension Plate feature provides an easier cutting touch on the reel.

This new feature is supplied only on Budd equipment made for mowers of 22 inch cutter bars, and larger.

A Welcome Face

A welcome face among the advertisers in our magazine is that of

**FOR BETTER GREENS
Use a Hardinge Mower Sharpener**

Sharpens quickly and accurately the bed knives and reels of all mowers.
