FEED Your Turf

Like all living things, turf grows best when properly fed. You will get better, greener turf, and it will stay green longer if you top dress with Driconure.

Driconure just "teems" with life giving properties. It is peat moss and cow manure dehydrated—a natural organic fertilizer—a perfect soil tonic.

If your dealer cannot supply you write us. \$2.50 per bag of 50 pounds F. O. B. plant at Juliustown, N. J. \$75. per ton.

Atkins & Durbrow, Inc.

FREE TRIAL OFFER

Before you spend another penny sharpening your present blades—try—without any obligation to buy—the remarkable Budd. Test it, see it perform—then decide whether you want to keep it or not.

FOR ANY MAKE MOWER

Budd gives you four times the service of ordinary blades. Cleaner, faster, more economical cutting. Most efficient blade ever designed. "Circular N" brings you the full story and our FREE Trial Offer. Wire or write for it.

THE BUDD MANUFACTURING CO., Ravenna, Ohio

but are so balanced that vibration is practically eliminated. That which does exist is transferred to the pneumatic pads of the tractor wheels. Therefore, there is no pounding of the delicate turf. The motors are oil proof. They do not spill oil or grease on the greens even after several seasons' use.

The gang mowers are so arranged that each unit independently assumes its own portion when taking undulations and in turning. It will not shave or scuff the high spots in the green or leave the low ones uncut. It travels on its own power from green to green like an automobile.

The "Overgreen," so the makers claim, will save in wages its entire cost in two months.

THE J. M. McCULLOUGH'S
SONS CO.

316 Walnut Street Cincinnati, O.

About the "Overgreen"

Interest in the general subject of golf course maintenance is so great that any introduction of new cutting machinery, for instance, at once meets with criticism both intelligent and at times unfair.

The Worthington "Overgreen" is a highly specialized machine which promises to revolutionize the whole practice of green cutting. It consists of a tractor in combination with a gang of three 18-inch units having a combined swath of over four feet. It will cut the average green in six minutes time.

The tractor weighs but two hundred and twenty-five pounds. Its wheels are fitted with tires that form themselves into soft pads and accommodate themselves to slopes and undulations of the green. They cannot injure the turf nor pack down the ground surface. The tractor wheel is a discovery that entirely eliminates the marking and tracking of the rigid roller or tire.

The engine employed for the motive power is the Harley Davidson which enjoys an international reputation in connection with their motorcycles. These engines are not only reliable at all times

FOR BETTER GREENS
Use a Hardinge Mower Sharpener

Sharpens quickly and accurately the bed knives and reels of all mowers.
