Space No. 50—Atkins & Durbrow, Inc.
Note: This list correct up to October 20, 1930.

Lawn Equipment Gives Real Service

The kind of service which greenkeepers need nowadays is an important part of the policy of the Lawn Equipment Corporation, located on Larned at Second Street, Detroit, Mich. In a recent letter the Manager, F. J. Fellman, says:

"The writer sold the first power lawn mower in the Detroit district in 1912. The writer saw the future in the golf industry and realized that by starting a service station, a real business could be built in the state of Michigan.

"It was necessary at that time for a greenkeeper to send his equipment to the different fac-

ories where they purchased it, for repairing and also they were troubled with a delay in getting parts. There was no place in the state of Michigan where a greenkeeper could buy everything for the maintenance of his course and we therefore, were the pioneers in complete golf course equipment and service in this state.

"We laid down a rule in the service station that any greenkeeper regardless of whether he bought his equipment from us or not, could get immediate service even if it necessitated the ripping down of a brand new lawn mower or loan him a brand new outfit to keep him running until service could be rendered. This is the reason for the Lawn Equipment Corporation's success and prestige in the state of Michigan. We enjoy the confidence and patronage of the greenkeepers due to the fact that we believe in square dealing."

"EVERYTHING FOR THE GOLF COURSE"
