## Many Clubs Use Hardinge Mower Sharpener

The popularity of the Hardinge Mower Sharpener is proved by the number of prominent golf clubs which have adopted it as regular equipment this past season. Among them are the following:

U. S. Government, Randolph Field, San Antonio, Texas.

Sunset Valley Golf Club, Highland Park, Ill.

Lake Shore C. C., Glencoe, Ill.

Westmoor C. C., Roselle, Ill.

Boco Raton Club, Boco Raton, Fla.

C. C. of Virginia, Richmond, Va.

Brae Burn C. C., West Newton, Mass.

Woodland Golf Club, Auburndale, Mass.

Glenview Club, Golf, Ill.

The Hardinge Sharpener is manufactured by Henry H. Doty, Glenview, Ill. It is especially flexible and accurately sharpens the bed knives and reels of all mowers.

## A New Company To Handle Seaside Bent

A company known as the Seaside Bent Seed Company, Seattle, has been organized to contract a large part of the crop of State Sealed and Certified Seaside Bent, *Agrostis maritima*, or, as the Department of Agriculture now calls it, *Agrostis palustris*.

Distributors for this company will be:

The J. M. McCullough's Sons Co., 316 Walnut Street, Cincinnati, O.

The Northwest Seed Company, 1103 Post Street, Seattle, Washington.

The Western Seed Marketing Co., Salt Lake City, Utah.

Seaside Bent Seed Co., is said to control about ninety-five per cent of the crop of Seaside bent outside of Lyman Carrier's production, which is sold under the trade names of Cocos Bent. Both Seaside and Cocos Bent are of the very highest quality and should not be confused with the uncertified seed which is not passed upon by the State inspectors.

## Believe All, Use Little

*Continued from page 5*

be to act conservatively, to establish research stations, and to evaluate every action. The greenkeeper of today must interpret all information in terms of his personal ability, particular problem, and maintenance budget.

## New Jacobsen Gang Mower Attachment

The latest development of the Jacobsen Manufacturing Company, Racine, Wisconsin, manufacturers of power lawn mowers, is a special gang mower attachment. This gang mower attachment has been designed to hook onto the front of regular Jacobsen 4-Acre Heavy Duty mower with rubber tired wheels, which gives the mower two extra cutting widths, or three in all, with a cutting capacity of 8 or 10 acres a day. It cuts a 58-inch swath. The complete mower is easy to handle as it can be turned in a 3-foot circle.

The Jacobsen Manufacturing Company designed this mower because they felt the need of a mower to economically maintain lawns of large size. It is particularly adapted for cemetery, park, school and large estate work. The Jacobsen 4-Acre Heavy Duty Mower has sufficient power to push the two extra cutting widths, which mean the additional capacity of mowing is handled at practically no extra cost.

The gang attachment can be easily removed, leaving the mower as it was orig-

inally, a 24-inch swath mower. A great feature of the attachment is that it can be raised while mower is moved from place to place.

This special attachment is not an experiment, but a time-tested product of the experienced Jacobsen Power Mower organization. Complete information may be received by writing direct to the Jacobsen Manufacturing Company, Racine, Wisconsin.
