NATURE'S OWN FERTILIZER

THE BETTER TURF FOOD

Pure Organic—by far the best—and safest

DRICONURE—a 100% organic fertilizer is a better fertilizer because it supplies the right food in the right way—Nature's own method. Nitrogen, phosphoric acid and potash, plus the all-important soil-building qualities of G. P. M. Peat Moss—which, like billions of tiny sponges, is guaranteed to hold more moisture and contribute more养分 over a longer period of time than any other commonly used medium.

In a word, it feeds without water, holding the food until used, physically builds up soil at the same time.

Write for a sample. See it at the Columbus Convention.
