**for FASTER  
CLOSER  
CUTTING**

The first successful power Putting Green Mower ever made was a Jacobsen. Today it embodies the greatest engineering refinements money and skill can produce. From pioneer to the day's outstanding leader, the Jacobsen today cuts the greens on hundreds of courses.

**the PERFECT  
PUTTING GREEN**

is the work of only a few minutes with a Jacobsen. A finer cut is given by its high-speed reel made in 19 and 24-inch widths. Auto-type differential assures easy handling of mower; independent control of traction and cutting units; enclosed gear drive; specially built, powerful motor; aluminum construction of major castings, are a few Jacobsen developments for greater speed and economy in cutting modern greens. The Jacobsen greens brush and power transport cart are valuable extra equipment for better greens maintenance and transportation of mower.

**FREE Demonstration**

Take nothing for granted. Let us show you on your own course. You name the date. We will show you how the Jacobsen makes the perfect putting green in HALF the time. Sales and service everywhere. Write.

they could be of the greatest service and help to the officers and members of the association in securing new members and in organizing new local associations. They all pledged themselves to cooperate with the officers and to build up the membership and help in all ways possible.

At the meeting of the Executive Committee on Friday night, Mr. Robert E. Power, President and Editor of THE NATIONAL GREENKEEPER, was made an Honorary Member of the association in appreciation of his past services. Mr. Power is very much pleased with his appointment and expressed his thanks to the Executive Committee.

A committee of three, Mr. Morley, Mr. Burkhardt and Mr. Quail, were appointed to meet with the committees of the Club Managers' Association and the Professional Golfers' Association in Pittsburgh at the time of the Annual Convention of the Club Managers to discuss ways and means to promote a closer harmony and good-will between the organizations. This is undoubtedly a step in the right direction and we feel that an understanding will be reached whereby all concerned will profit by it.

Mr. Ganson Depew, Chairman of the Green Section of the U. S. G. A., has expressed thanks to the greenkeepers for their assurance that we will cooperate with the Green Section in their work. Mr. Depew looks forward to a pleasant term in office through the assurance that both organizations will be working in close harmony for the good of the game and sport.

**McKay Honored**

Now that the excitement of the Show, etc., is over, which I think was the best ever, I am pleased to tell you that I have been elected an honorary member of the Shawnee Golf Club.

I built and laid out Shawnee and they have made me an honorary member to show their appreciation of what I have done for the course and also for the golfers of Shawnee.

I am not sure that many greenkeepers get this honor so I thought I would let you know about it.

A. G. MCKAY,  
313 Cecil Avenue,  
Louisville, Kentucky.
