

view of the fact that many greenkeepers have expressed themselves quite strongly at times in regard to players and galleries, he would be very much interested in hearing from them.

* * *

The Southern California Greenkeepers' Association recently held their annual election and meeting. As a result C. W. Hazlett of the Bel-Air Country Club of Brentwood succeeds Robert S. Greenfield of the Wilshire Club of Los Angeles.

* * *

At the time of writing rain has been falling in the Los Angeles district every day for over a week. Although the downpour has not been continuous and golf has not been seriously interrupted the novelty of the fact that rain has been in the vicinity for that length of time is surprising the natives.

New Jersey Greenkeepers Meet

By JOHN ANDERSON

The Association of Greenkeepers of New Jersey held their regular monthly meeting in the Newark Athletic Club, Newark, New Jersey, Monday, February 9. Chairman Isleip called the meeting to order at 8:00 p. m.

After the ordinary business was taken care of, the monthly talk was given by Greenkeeper Reilly of Rock Spring Country Club on "Spike Rolling of Fairways." Mr. Reilly gave an excellent talk on this subject, con-

A fine stand of genuine Washington strain of Bent. Extra rich in nodes.

vincing his listeners that on heavy clay soil, fairways are benefited by periodical spike rolling.

The boys were all anxious to hear about the Convention, so I did my best to tell them all I could, in a very short time, touching on the high spots. Everyone was interested in the fact that the next convention is to be held in New York. I am confident that we will get the hearty cooperation of the New Jersey Greenkeepers to assist us in making the 1932 Convention a great success.

Indiana Says Hats Off

By CHESTER COVAL, Secretary

HATS OFF! for the 5th Annual Convention of the National Greenkeepers' Association held in Columbus, Ohio, February 2-6.

* * *

The committee in charge proved themselves to be royal entertainers from start to finish. I feel free to say that this Convention was the best that I have ever had the privilege of attending. One of the outstanding features being the lectures on various topics given by such able speakers.

* * *

The numerous displays were both beautiful and instructive and well worth the time spent in looking them over.

* * *

The banquet and entertainment following was one of the most enjoyable features of the entire meeting.

* * *

The Indiana Greenkeepers regular monthly meeting was held at 10 o'clock a. m. Thursday in Room 229 at the Deshler-Wallick hotel with twelve members present. This was a very interesting meeting as we had the pleasure of adding two new members of our organization, both of whom gave very interesting talks.

* * *

On behalf of the Indiana Greenkeepers' Association we wish to express our thanks to all who took part in making this Convention an instructive and entertaining meeting.

Old English Grass Seed

FOR GOLF COURSES
BENT - FESCUE - BLUE GRASS - RED TOP

THE PHILADELPHIA SEED CO.

103-105 Arch Street

Philadelphia, Pa.

Purchase Winter Hardy, Acclimated Bent Grass Seed

Direct from my farms where it grows

There is no one variety of grass, whether it is fine turf grass or forage grass, that grows equally well under all the varying degrees of humid, soil, and climatic conditions. The alfalfa that grows in North and South Dakota is a vastly different strain than that which grows and produces the wonderful yields in the Salt River Valley of Arizona. The dent corn grown on the plains of Iowa and Nebraska is not the same as the Indian Maize corn that produces the largest yields in southern New England.

Likewise, certain varieties of Bent grass do much better in some localities than in others.

I have had a great deal of experience covering eleven years in furnishings hundreds of golf clubs with their annual seed requirements. If you will absolutely follow the simple directions in applying the seed that I recommend to revamp your old greens or old fairways or on new seedings, I will absolutely GUARANTEE RESULTS.

This month and next is the time to apply your seed to improve the turf on your old greens and fairways. New seedings do rather better in the Fall.
