Names marked with star attended the advanced course covering a three-day period, from February 23 to 25 inclusive.

**JOHN
QUAIL
SAYS:**

THIS is the busiest season of the year, but don't get too busy to get a few new members or pay your dues.

* * *

If we want to keep our promise to have a thousand members by the next convention, we will have to have better support from the present membership. Keep after the prospective member until you get him in.

Have you decided to join the Death Benefit Fund yet? If you want to join, make application to the secretary.

* * *

Quite a few local organizations are changing the name of their associations from greenkeepers' association to golf course superintendents' association. Since a greenkeeper has charge of so many different operations around a club he deserves a more fitting name than greenkeeper which only applies to greens and a golf course. The name superintendent seems to be more fitting.

* * *

Philadelphia, Pittsburgh and Minnesota local associations are known as golf course superintendents and the reaction has been most satisfactory.

* * *

Several local associations are planning field days this summer. Great big outdoor meetings at some well-known club or experimental station will do much to improve the knowledge of all who attend. The Western Pennsylvania boys are planning a trip to Penn State College to visit the well-known experimental plots. It will be a grand trip and a lot of benefit will be derived from the visit.

Don't forget to write that story for the NATIONAL GREENKEEPER and send the pictures in. We want to make the magazine the best in the world, so let's all help.

Buy Your Greens Ready Made

**Lay them down
like a carpet!**

Among the noted Golf Architects who used Genuine Illinois Creeping Bent Grass Turf on courses constructed by them in 1930, are:

AL HACKBARTH
W. C. Grunow Private Course,
Lake Geneva, Wis.

GEORGE O'NEIL
Lincoln Fields Golf Club, Crete,
Illinois.

JACK DARAY
White Pines Country Club,
Bensonville, Illinois.

Hundreds of landscape architects, golf and country clubs, greenkeepers, parks, athletic fields, estates, homes, etc., utilize Illinois Grass Co.'s True Washington Strain Creeping Bent in solid turf form. Furnished in rolls ready to lay down like a carpet. Our solid turf has the reputation of being extremely hardy and uniform in texture. It is mowed with a putting green mower and is hand-weeded at our nurseries. Guaranteed to grow vigorously into rich, velvety greens if properly cared for. Our scientific nursery methods of preparation and growth are unexcelled. Also sold in stolon form, packed 250 square feet to the bag, same high quality as the turf.

Write today for prices, samples and facts about our unusual service.
