

CREEPING BENT TURF WITHSTAND - HEAT WAVE

Countless greens were ruined in the severe heat waves before July 4th, but Illinois Grass Co.'s True Washington Strain Creeping Bent stood this trying period with little or no damage. Used by hundreds of greenkeepers, golf and country clubs, etc., in solid turf form. Furnished in rolls ready to lay down like a carpet. Guaranteed quality. Available in stolons also. We grow Blue Grass sod, too.

"Use Regularly," say authorities, to

Discourage "Brown Patch"

SPIKE DISCS aerate the turf and produce a moisture-retaining mulch. Thus the ground does not become hard-baked and "brown-patch" is discouraged. Essential also when re-seeding, fertilizing and top-dressing. Seed and fertilizer settle in the perforations made by Spike Discs and are not blown or washed away.
