Bettering Maintenance at Small Town Golf Courses

(Concluded from page 13)

shoveling, and are using one of the newer types of topdressing distributors. These enable the work to be done in a fraction of the time that the work formerly took by hand and the application is much even. In this and other cases, the money spent by some clubs for equipment of this type is proving to be a far-sighted economy.

There are great opportunities for the extension of golf in the smaller communities of the country. The small town golf clubs are playing an important part in the social and recreational life of the community. Those responsible for keeping the smaller courses should aim high. Already many small town greenkeepers have demonstrated that the large clubs have no monopoly on good layout, natural beauty, or fine turf.

The Perfection Sprinklers

THE Perfection Sprinkler Company, Plymouth, Michigan, are introducing a new product in their line which operates at a very low water pressure. This is due to the invention of a new spray nozzle which has revolutionized the rotary type of sprinkler by completely eliminating the several objectionable features which have been the cause of much trouble in the past.

The makers claim that in operation it intermittently interrupts in such a way as to deliver the correct amount of water at all distances from the center, the result being perfectly even distribution over the entire sprinkled area.

Groundskeepers should be interested in the right way to water greens. The truth is that water should be put upon the turf as fast as it will go down straight into the soil. If it goes down faster than the soil will absorb, the result is too many low spots and depleted high spots.

Slow, even watering is the right way and while it may take a little longer it is much more efficient and economical.

The company has a circular which explains their method, which may be had upon request.

EMPLOYMENT DEPARTMENT

GREENKEEPER WANTED

I have a position open for an all-around man, experienced in upkeep of an 18-hole sand green course. Must be A-1 with mowing equipment and machinery. Only one who takes interest in his work and sees that the job is done will be considered. Address all inquiries to Box 10, The National Greenkeeper and Turf Culture, Caxton Building, Cleveland, Ohio.

POSITIONS WANTED

Experienced greenkeeper with splendid references desires position in the Chicago district. Understands thoroughly soil and climatic conditions. Good man for any club. Address inquiries to Box A, The National Greenkeeper and Turf Culture, Caxton Bldg., Cleveland, Ohio.

Nationally-known greenkeeper with many years' experience in the construction and maintenance of several well-known golf courses, such as Oakmont in Pittsburgh and Plum Hollow in Detroit. Has a son who will act as assistant and is an expert mechanic. This combination should appeal to any golf organization desiring efficient and economical management. The best of references will be furnished upon request. Address inquiries to Box B, The National Greenkeeper and Turf Culture, Caxton Bldg., Cleveland, Ohio.

Pro-greenkeeper or greenkeeper with best of recommendations and thorough experience in maintenance and construction. References furnished upon request. Address inquiries to Box C, The National Greenkeeper and Turf Culture, Caxton Bldg., Cleveland, Ohio.

Pro-greenkeeper with many years' experience, seeks position as professional, pro-greenkeeper or greenkeeper. Grand-nephew of the late "Old" Tom Morris of St. Andrews, Scotland. References, John Ball, eight times British Amateur champion, and Jimmie Johnson, ex-American Amateur champion. Previous connections, Town and Country Club, Saint Paul; Midlothian C. C., Chicago; Louisville C. C.; Country Club of Harrisburg, Pa. Address Tom Morris, 1548 E. 64th Street, Chicago, Illinois.

Better Greens

BETTER greens at lower maintenance cost is the slogan of the Jacobsen Mfg. Company, Racine, Wisconsin.

In a catalog recently issued they explain the economy which may be affected through the use of their mowing outfit and furnish a compilation of figures which appear to be quite conclusive.

This catalog is illustrated with views of estates and golf courses and explains quite accurately the character of their equipment.

It is quite significant that they have a brush attachment on their power lawn mower which agitates the turf and improves its general condition.

Jacobsen has a power mower for every cutting job whether it may be golf courses, estates, parks or cemeteries. The cutting width runs from 18 to 30 inches. Complete information may be had by writing the company at the above address.

will keep new-cut Greens free of ant hills and worms and not injure turf. Trial order to make fifty gallons.
