

## THE CHOICE OF TOURNAMENT OFFICIALS

National and Sectional tournaments are held on courses having good turf. It is not surprising that the courses selected are those on which Roseman Mowers have improved the turf beyond comparison with others.

### A THREE-YEAR RECORD

Major Tournaments were awarded to these courses improved by Roseman Mowers.

*You will know a Roseman mowed course when you play it. Ask any greenskeeper.*

## ROSEMAN HOLLOW ROLLER MOWERS

U. S. Patent No. 1327924, British 154783, French 605456, give us exclusive right to  
gang ROLLER TYPE MOWERS. If it is not ROSEMAN—it is an infringement.

## THE PAINESVILLE NURSERIES

When The Storrs & Harrison Nurseries were established on the banks of Lake Erie in 1854, the founders themselves did not realize all the advantages of their splendid location. The hardy vigorous climate has always produced hardy sturdy trees which are well acclimated to any part of the United States. A second great advantage is the many varieties of soil, seven in

all, on which the different species of trees, plants, shrubs, and roses best adapted to their own native soil are grown. Only under these conditions are the best results obtained. Excellent shipping facilities and central location aid us in serving you. For seeding parks, lawns and golf greens our Velvet Sod Mixture has stood the test for years.

look the same. So after all the school of experience is the only one.

Greenkeeping like the game of golf is a paradox. The only way to learn it is to serve under a competent man, watching his successes and his failures and profiting thereby.

## Close, Clean Cutting At Full Speed

Greenkeepers who are using the tractor-drawn PENNSYLVANIA Super Fairway Quint have discovered the two reasons why it cuts grass closely and uniformly at maximum speed and thus saves time and labor.

In the first place, the sturdy construction of the Super Fairway Quint enables its five mowers to hug the ground as a single unit. And, yet, each one of these mowers, by means of an ingenious swivel attachment to the frame, independently follows

the exact contour of the ground it covers. Moreover, a further saving in both time and labor is effected by the Super Fairway Quint through its PENNSYLVANIA Quality construction, which insures minimum repair cost and uninterrupted service.

The Super Fairway is described in detail in our attractive golf catalog, which also contains complete details on the other mowers in the PENNSYLVANIA line for golf courses. Write today for your copy.

## PENNSYLVANIA LAWN MOWER WORKS

1645 North 23rd Street

Philadelphia, Pa.

### TEN SUPER FAIRWAY FACTS

1. Every moving part roller bearing—even the ground rollers.
2. May be used to cut the rough by raising its units.
3. Frame supported on two separate ground wheels.
4. Alemite lubrication.
5. All knives of crucible tool steel, oil hardened and water tempered.
6. All bearings and gears in dirt-proof, oil-retaining housings.
7. Knives and rollers adjustable for even cutting.
8. Mower units interchangeable—will fit in any position.
9. Removing two bolts changes the Quint to a Trio.
10. Each mower unit may be raised separately. Automatic clutch idles or engages cutting cylinders as they are raised or lowered.
