

*A Piece of Coccoos Bent Turf*

Today's low prices on Bent Grass Seeds should encourage the more liberal sowing of these grasses, which in the past, on account of their high cost, were restricted largely to Putting Greens.

*Sow Bent on Your Fairways and Lawns!* The extreme fineness and beauty of turf produced from Bent Seed are well known and its superiority for use on the golf course is recognized.

## COCOOS BENT

We are now convinced, after several years of trials in the different sections of the United States, other than the Pacific Coast, where it is already recognized as the outstanding Putting Green Grass, of the fine turf producing qualities of this Creeping Bent. True Coccoos Bent turf is superior to turf produced from stolons and yet of the same creeping habit and uniform color.

Use Coccoos Bent for your new greens or work it into existing greens, or wherever a fine and enduring turf is desired.

**Per lb. \$2.50, Per 10 lbs. \$22.50, Per 100 lbs. \$200.00**

**Remember:**—All our seeds are of the highest quality, obtained direct from the most reliable sources of supply and are botanically true to name. All seeds are new and are cleaned and recleaned until they are brought up to the highest possible state of purity and germination, special care being given to the elimination of weed seeds.

We are always glad to suggest varieties suited to your soil and climate, to assemble a combination of seeds to your specifications, or to supply our own mixtures.
