The Kirtland Country Club
WILLOUGHBY, OHIO

June 3, 1929.

Mr. Lyman Carrier,
Granger, Indiana.

Dear Sir:

As you know, the Kirtland Country Club has been using Lecco for the past four years and in that time, it has accomplished so much for us I hardly know where to begin, for behind each step is a story in itself, but will give them briefly.

First, our compost pile is a thing of the past and we have proved beyond a doubt that Lecco, with soil of a good texture, is all we need to produce a surface of beautiful turf. We have had very little diseased turf as Lecco produces a healthy growth which makes our Brown Patch trouble very light.

Second, in the past two years we have treated our fairways in the spring and fall, using 300# to the acre, and it has brought them from a thin, clover and weed infested turf to near perfection.

Third, Lecco has solved another problem for us. We have a very small percentage of worms on our putting greens.

Our two Polo fields are a good example of what healthy turf will stand. Two treatments a year keeps them in perfect playing condition.

Wish to take this opportunity to thank you for giving to the greenkeepers a product that makes life worth living.

Yours sincerely,

Kirtland Country Club,
M. S. Moore
Greenkeeper.

Now - send a postal card for a FREE 5 pound package of LECCO

—Enough to cover 400 square feet. Try it on a corner of a green.

LYMAN CARRIER GRANGER, INDIANA

IT WILL CONVINCe YOU THAT LECCO IS THE WORLD'S PERFECT GRASS FOOD
