

ANNOUNCING

the new PENNSYLVANIA Tractor *for general use on Golf Courses*

The new PENNSYLVANIA Tractor, using the latest Chevrolet light delivery model, is the first application of a 6-cylinder engine to tractor operation. Its tests have shown remarkable power, smoothness of operation and control and operating economy. *There is no engine vibration at any speed.*

Wheel base, only 87 inches; turning radius, $8\frac{1}{2}$ feet; speed, 20 miles per hour maximum in high; interchangeable wheels; electric lights, self-starter and other standard Chevrolet equipment; steel dump body, capacity one cubic yard.

Write for details and for catalog describing the tractor-pulled PENNSYLVANIA "New" Fairway Quint, the Super Roller and New Aristocrat greens mowers and all the other PENNSYLVANIA golf mowers.
