There are two methods to achieve

There are two methods to achieve the same result when painting logos on turf. Steve Wightman, (Turf Manager Denver Mile High Stadium) center, assisted by Glen Bronner, (College of DuPage), shows how it's done with pegs, string and spray, using the NFL logo at the Midwest Turf Institute.

Grounds crew employee James Conway, from Cleveland Municipal Stadium, under the direction of David Frey, paints the logo of horse and rider at Holy Cross College with the aid of a sketch, cut-outs, and paint. The logo is sketched on polyethylene, then cut outs are made for letters and artwork. Paint is then brushed on to turf through the cutouts.

Reel mower back-lapping demonstration at Midwest Sports Turf Institute June 22 at College of DuPage. Sponsored by Chicago Turf.

James Long, Superintendent of Building College, coordinated a very successful I July 12 at his campus, which was spons
