OUR DEFENSE IS ON THE FIELD LONG BEFORE THE GAME BEGINS.

The emerald gridiron at Ericsson Stadium, home of the Panthers, is fiercely protected by more than just a top-ranked football team. This exceptional field is guarded from goalpost to goalpost by the defensive line of Lofts Seed.

Lofts is the exclusive turfgrass seed used for overseeding the bermudagrass at Ericsson Stadium. Lofts Tri-Plex Ryegrass establishes quickly and provides a deep green, lush appearance without disrupting playability.

Tri-Plex Ryegrass is also a popular choice for cool season athletic fields. It outcompetes *Poa annua* and creates a dense turf to help prevent player injury.

So if you've got an athletic field to defend, take a play from one of the best football stadiums in the league. Use Lofts Seed and stay at the top of your game all year-round.
