

- GOLF - Las Vegas Style!

Textron Golf & Turf, manufacturer of Jacobsen, Ryan and Cushman products, is once again the proud sponsor of the STMA-Extron Open at the 13th Annual Conference & Exhibition. The tournament will be held on Wednesday, January 16, 2002 at the SilverStone Golf Club, Las Vegas, Nevada.

All of the income from this tournament will go to the SAFE Foundation for scholarships and research grants. STMA Executive Director, Steve Trusty stated, "This is an excellent opportunity for STMA to be able to fund more and larger scholarships and to start funding needed research to provide the best sports surfaces for all levels of play."

Conveniently located minutes from the "Las Vegas Strip," and yet, a world away, SilverStone is nestled in the high desert surrounding of the Sheep Mountain Range.

Newly opened in July, 2001, this Robert Cupp designed course features 27 championship holes in a combination of Mountain, Valley and Desert, lush greens, rolling mounds and spectacular views of Sheep Mountain. Participants will be playing the Mountain/Desert combination.

The tournament will begin with a shotgun start at 8:00 A.M. on Wednesday. Extron will provide carts, transportation to and from the course, beverages and an Awards luncheon immediately after the tournament in the brand-new 25,000 square-foot clubhouse, overlooking the Sheep Mountain Range.

So, if golf is your "bag," pack your clubs and fill in the information on your registration form located in your conference packet (or available online at www.sportsturfmanager.com).

We hope to see you there!

Why the Switch?

Why are football and soccer facilities all over the country switching to Soilmaster® soil conditioner?

For great-looking, safe-playing fields...

Soilmaster® soil conditioner is ideal for incorporating into aeration holes to relieve compaction in the high traffic areas between the hash marks and the 20-yard lines. Made from a unique montmorillonite clay, and fired for maximum hardness and stability, each granule has a network of thirsty pores that quickly wicks water away from the playing surface and promotes drainage. The result - deep rooted, divot resistant turf that recovers more quickly from heavy play.

It's time you made the switch!

Call (800) 648-1166
