**March 2002**

STA/ORFA Educational Workshop  
Date and location to be confirmed.  
Watch for details!

Contact Lee at the STA office if  
you have an event to publicize.

## New Advanced Course at GTI

TURF MANAGERS' SHORT COURSE SCHEDULED FOR FEBRUARY

A new Advanced Turf Managers Short Course has been scheduled for February 18-20, 2002 at the Guelph Turfgrass Institute. The course will cover advanced topics in turf management including integrated pest management, physiology of turf herbicide action, advanced entomology, applied landscape ecology and advanced topics in turf-water relationships. At the end of each day, Dr. Jack Eggens will present case studies to illustrate some of the concepts presented in the course.

In addition to the academic components of the course, a dinner is planned for one evening. Although designed for graduates of the University of Guelph Turf Managers Short Course, the program will be open to anyone interested in building upon their

basic understanding of current turf management issues. For more information call (519) 767-5000 or e-mail [robwith@uoguelph.ca](mailto:robwith@uoguelph.ca). ♦

### Words of Wisdom ...

*Loyalty to the Absent.* One of the most important ways to manifest integrity is to be loyal to those who are not present. In doing so, we build the trust of those who are present. When you defend those who are absent, you retain the trust of those present.

### ★ Thank-You!

The STA thanks its members, suppliers and advertisers for their continued support in 2001.

## Supreme-Green™ TURF COVER

The multi-purpose turf cover ideal for natural turf environments such as baseball, soccer and football fields, etc.

### BENEFITS

- accelerated seed germination • encourages root development • early spring green-up
- delays dormancy in fall • winter protection: reduces frost and ice damage • turf repairs
- available in any size
