STA DONATES \$1000 TO GTI

As part of the mandate of the Sports Turf Association to support turf research, Mr. Peter Kleschnitzki, (left) President of the Association, presented Prof. Chris Hall, Director of the Guelph Turfgrass Institute, with a cheque for \$1000.00. The funds will be used to complete the construction of the Institute building (seen in photo below). Construction is well under way and completion is expected in late August. The formal opening will occur sometime in October. A machinery storage and service building has already been erected by O.M.A.F. Plans are now being formulated for the development of the research plots. The first seeding of turf plots may occur as early as the spring of 1993.
