

The TORO logo is a red square with the word "TORO" in white, bold, sans-serif capital letters.

**Count on it.**

## **GROUNDMASTER 7210**

A zero radius turn mower rugged enough to be a Groundsmaster. Start with a PTO shaft-driven mower deck and the industry's toughest spindle assembly. Add a direct drive hydro transmission with a wet disc clutch, and a liquid-cooled diesel engine. That's Groundsmaster Tough. With the added versatility of removing snow, grooming infields and blowing leaves.

The first zero radius turn mower that doesn't hibernate when the snow flies. The patent-pending POLAR TRAC system converts the mower to a snow removal machine with rubber tracks and a heated cab - That's Groundsmaster Versatility. A quick connection system allows you to switch between snow blower, rotary broom, angled snow blade and V-plow.

**Call us for a NO OBLIGATION DEMO.**
