

Introducing new ProCore[®] aeration solutions

One great result.

TORO. Count on it.

ProCore[®] 1298

ProCore[®] Processor

Healthier Turf

Core aeration is a vital step in your cultivation program to keep your turf healthy and looking great.

Superior Productivity

The new ProCore 1298 large area aerator combines proven coring head technology with new innovations in durability to bring you the most productive aerator available today.

One Pass Convenience & Efficiency

The new ProCore Processor sweeps, processes and disperses aeration cores in one pass directly behind the ProCore aerator. A single operator and tractor can now accomplish the work of many.

Simplified Aeration!

Innovative new aeration solutions from Toro provide superior results.
