

**New Walker Power Truck, a small-wheel, multipurpose vehicle** which is said to be useful as a rolling workshop, cargo hauler, or (with attachments) as a small dozer or rotary mower for turf, has just been developed.

### Power Truck Has Many Uses

A new small-wheel multipurpose vehicle, the Walker Power Truck, has been introduced by the Walker Manufacturing Co. Of interest to vegetation maintenance personnel is the fact that the machine, with attachments, converts to a rotary mower, and that it is useful as a mobile workshop and as a personnel carrier.

Specifications include a 2-cylinder, 50 cu. in., air-cooled gasoline engine; 42 amp alternator; automatic clutch; automatic hydraulic brakes; and heavy-duty precision steering.

Wheel base is 56" and cruising speed is 40 mph, the manufacturer reports.

The Walker machine has a single-control foot pedal, so driv-

ers merely push it to go, release to stop. There is also a foot-controlled brake for quick stops.

Complete details on the Walker Power Truck are available from the company in Fowler, Kansas.

### Turf Scholarship Set in Miss.

A new scholarship in turfgrass management has been established at Mississippi State University by the Southern Turfgrass Association, which has membership in Alabama, Arkansas, Louisiana, Mississippi, Missouri, Tennessee, and Kentucky.

Amount of the stipend, to be given each year, is \$300. Applicants should write to Dr. L. N. Wise, Dean, College of Agriculture, Mississippi State University, State College, Miss.

### Root-Lowell Offices Moved

Root-Lowell Corp., has transferred its general offices from Chicago to Lowell, Mich., location of the Root-Lowell factory, according to R. F. Brush, president.

# FOR SAFE SPRAYS USE PRATT'S

Arborists and Custom Spraymen have depended upon PRATT'S for quality spray formulations for over half a century.

Start your schedule with SCALECIDE—the "dean" of the Oil Sprays. So safe that it can also be used as a foliar spray.

Pratt's formulates a complete line of emulsifiable concentrates for hydraulic and mist blowers and oil base concentrates for thermal fog equipment.

Send for our free circular, "Pratt's Spray Bulletin for Shade Tree Spraying."
