**Interested in Suppliers Guide**

We enjoy your *Weeds and Turf* publication as it is an extremely informative publication. You do an excellent job in presenting scientific information.

In a recent issue you included a Chemical Suppliers Guide. Since we supply many of the products that were listed in the guide, could you advise us on the procedure you use for selecting and including the names of suppliers?

*Questionnaires are mailed each year to companies which supply chemicals for weed control, turf maintenance, and tree care. This year's directory, which will appear in the December issue, will also include equipment. Ed.*

**Parkman Likes WT**

*Weeds and Turf* is a very excellent publication and receives cover-to-cover attention in my office every month. You and your organization are to be congratulated on the preparation and publication of such a worthwhile magazine.

**WSA Appreciates Coverage**

I want to take this opportunity to express our deep appreciation for the fine journalistic coverage you gave the February meeting of the Weed Society of America (WSA) in your March 1964 issue of *Weeds and Turf*. The excellent coverage you gave to our meeting will enhance the image of weed science in this country and abroad.

The generous amount of space you allotted to the coverage of our meeting in your March issue is commendable. We certainly hope you will plan to cover other

major events in weed science and especially future meetings of WSA.

We also congratulate the editorial staff of *Weeds and Turf* on their decision to publish this timely periodical as a separate journal.

**Needs Illustrated Weed Book**

I enjoyed the April issue of *Weeds and Turf* very much. The magazine is very interesting and I find a lot of valuable information in it. I have been in the spraying business for eight years.

Would you know of a dictionary of weeds with pictures of each weed in color? This would help my men to recognize various weeds for study.

*If any readers know of a book that would meet the requirements in the above letter, we're certain that this information would be well received by Mr. Keyawa as well as other interested applicators.—Ed.*

**Problem With Pond**

We have a 1½-acre pond with an average depth of 30 inches. Water source is from a creek, and water from the pond is used to irrigate tees, greens, and fairways. Our problem is keeping the water clean. We would appreciate any information on control of algae and underwater weeds.

*We recommend our "Applicator's Manual of Aquatic Weed Control," which will give you the information you seek to cure your pond problems.—Ed.*

*Weeds and Turf welcomes expressions of opinions from its readers. Send ideas and comments briefly as possible to Charles D. Webb, Editor, Weeds and Turf, 1900 Euclid Ave., Cleveland 15, Ohio.*
