- Northwest Turfgrass Association Conference, Hayden Lake, Idaho, Sept. 22-24.

## Sprayarama '65 Set for Sept. 20-21 in Seattle

Sprayarama '65 opens Sept. 20 at the Seattle Civic Center in Seattle, Wash. The two-day conference of the Washington Association of Ground Sprayers, Inc. promises a schedule packed with information and interest, according to Jack Daniels, president of W.A.G.S.

After registration and welcoming remarks, the first session on Monday afternoon, Sept. 20, begins with discussions of "Turf Diseases" by Dr. Charles Gould, "Turf Fertilizers and Weed Controls" by Dr. Roy Goss, and "Weed Control in Ornamental Plantings" by Art Myhre. All three speakers are turf researchers at Western Washington Experiment Station at Puyallup, Wash. Tom Hall of Colloidal Products, Yakima, Wash., speaks on "Surfactants" to round out the session, which is followed by a question and answer period, social hour, and banquet.

### Equipment Display on Program

Tuesday's session, chaired by Art Mekas, King County Extension Agent, begins with Washington State University pathologist Otis Maloy whose topic is "Plant Diseases." Jack Warren, of Chemagro Corp., considers "Systemic Insecticides" and Jim Overton, Miller Products, describes "Public Relations and Pesticide Applicators." Larry Nipp, president of the National Spraymen's Association, is scheduled to deliver the final address, "The Potential of Contract Operators in Turf and Ornamental Field." Sprayarama '65 concludes with a general open discussion of applicators' problems and solutions and an equipment display coordinated by John Behey, Donald Mock and Stan Raplee of W.A.G.S.

Information and reservations for Sprayarama '65 are available from W.A.G.S. president Jack Daniels in care of the Washington Association of Ground Sprayers, Inc., 2820 South 150th, Seattle, Wash. 98188.

SAVE TIME  
SAVE LABOR

WITH  THE BEST

### TWIN TANK MISTBLOWER DUSTER

Liquid Payload: 3.5 gallons  
OR 1 3/4 gals. and 15 lbs. dust.  
Use the same durable TWIN TANKS to spray, dust, wet-dust and spread granules. No dismantling, no rebuilding.

DEEP PENETRATION  
BETTER COVERAGE  
BUILT BETTER TO LAST LONGER

### BRUSH CUTTER

with Flexible Drive Shaft

powered by 2 1/2 HP Back-Pack engine of the same famous brand used on our Knapsack mist sprayer. World's most reliable 2-cycle engine. 8" circular blade; 3" clear cut, tilt head.

Other TARPEN-FLEX tools can be attached to the same flexible drive shaft.

### WEED CUTTER

Chain Saw—Pruning Saw  
Hedge Cutter—Hoe/tiller

Flexible shaft can also be driven by wheeled power unit with Clinton engine or from PTO of your tractor.
