### Boosts Professionalism

I am very pleased to note the editorial in the November, 1964, issue of *Weeds Trees and Turf*, "Setting A Good Example." This, it seems to me, is good advice for many of our horticultural activities. I like, very much, your emphasis on professional status of the industry. We in the nursery industry could use a little more of this feeling, both within our industry, and in creating the image of professionalism among our clients. It has been discussed at great length at some recent meetings of the American Association of Nurserymen Education Committee.

I am also very much pleased to see, in the same issue, the reporting of the Minnesota Shade Tree Conference, held recently at the University of Minnesota St. Paul campus. You have done a good job in reporting this and I think the conference has helped to stimulate an awareness on the part of park superintendents, golf course operators, and others, that there are several species that are well adapted to the area. This is a good article.

Vincent K. Bailey

### Plastic Weeds for Study?

Would it be impractical for some manufacturer to reproduce weeds in plastic—in color—and sell them to schools, golf courses, parks, cemeteries; every place where weeds are studied or there is a weed problem?

H. R. Rubendall

Freeport Country Club  
Freeport, Ill.

*This idea has so many possibilities in weed education programs that we present it here for all to read.—Ed.*

### Needs a Lift

Please furnish us with the names and addresses of manufacturers and/or distributors of the following described equipment: A one-man, mobile, self-propelled unit with personnel boom. Used in tree pruning, thinning, spraying, fruit pick-

ing, etc. Also the trademark name of equipment, if known.

R. M. Huntley

Advertising Manager  
Weed Control Service, Inc.  
P.O. Box 6527  
Portland, Oregon, 97223

*We regret we cannot help on this, but we publish your request here in the event that our readers may know of equipment of this type and will share the information with you.—Ed.*

### Correction

We have noticed on Page 34 of the December, 1964, *Weeds Trees and Turf* that Armour Agricultural Chemical Company is listed as handling our product, "Milorganite."

We feel that a retraction would be in order on this, in that Milorganite is handled exclusively by The Milwaukee Sewerage Commission and its exclusive franchised distributors.

Charles G. Wilson

Sales Manager and Agronomist  
Milorganite Turf Service  
Sewerage Commission of the  
City of Milwaukee  
Milwaukee, Wis.

*Weeds Trees and Turf sincerely regrets the error.—Ed.*

### Wants WTT Expanded

You do an excellent job and I approve the inclusion of "Trees" as part of your new name. Spraying ornamentals, fertilizing, and general care, including pruning, is my main interest, although a good portion of my work deals with pest control of indoor plants.

I'd be delighted to see you expand your magazine to include more on maintenance of plantings around homes.

James H. McNally

1255 Galvez Drive  
Pacifica, Calif.

*A rather extensive article on new herbicides for use in ornamentals appears on page 12. Also, articles dealing with subjects closely allied to ornamental spraying will appear throughout the year.—Ed.*

*Weeds Trees and Turf welcomes expressions of opinions from its readers. Send ideas and comments briefly as possible to Charles D. Webb, Editor, Weeds Trees and Turf, 1900 Euclid Ave., Cleveland, Ohio 44115.*
