### New Clearance for Dacthal

Dacthal preemergence herbicide has received new label clearance from the U.S. Department of Agriculture to include 26 vegetable crops, says John S. Cort, Jr., general manager, Agricultural Chemicals Division, Diamond Alkali Co., Cleveland, Ohio.

"Our chemical also is now proved effective as a preemergence preventive of wood varieties from undesirable grasses to such annual broadleaves as purslane and lambsquarters," Cort added.

The herbicide is said to be safe and effective on many types of ornamentals. It is available as a 50- or 75-percent wettable powder. It leaves no troublesome carryover in the soil, neither does it produce odor or off-flavor in crops, or intoxication or irritation to the applicator.
