

Clarke W. Davis, executive secretary of National Arborist Assn., which will meet with ISTC.

"Biotic Approach to Insect Control," by John W. Peacock, shade tree entomologist, U. S. Forest Service, Delaware, Ohio; "Selected Trees for Street, Lawn, and Industrial Landscapes," by Roy Nordine, the Morton Arboretum, Lisle, Ill.; and "Personnel Management," to be analyzed by Hackett C. Wilson, Wilson Tree Co., Shelby, N. C. Educational sessions will close with F. L. Parr, Parr & Hanson Co., Hicksville, Long Island, N. Y., speaking on "Arboriculture: What's Ahead?"

Plan Entertainment for All

Final day of the '66 convention, Friday, Sept. 2, offers a post-convention tour for delegates to interesting shade tree sites in and around Cleveland. So that the meet will interest the entire family, a separate ladies' program, and a teenage and youth program have been arranged to include sightseeing and entertainment. Convention activities culminate with the annual banquet, set for 7:30 p.m. on Thursday.

John Michalko, Shade Tree Commissioner of Cleveland, is general chairman of the '66 gathering, which is expected to attract more than 1,000 treemen to "The Forest City." William P. Lanphear, III, vice president and treasurer, Forest City Tree Protection Co., Cleveland, is co-chairman. Executive director of the International Shade Tree Conference is Dr. Lewis C. Chadwick of Columbus, Ohio.

New Turfgrass Guide Available from Penn. State

An attractively prepared 32-page booklet on turfgrasses is now available from Pennsylvania State University.

Called "Turfgrass Guide for Lawns, Recreation Areas, and Roadsides," the publication describes 22 grasses and includes explanations of seed labeling requirements and mixture recommendations.

Special turfgrass problems

such as weed, insect, disease, moss, and algae control, are all discussed in the guide.

Other areas covered are soil testing, turf establishment and management, and turf renovation. Drawings of 24 common lawn weeds are on the booklet's rear cover.

Copies are available from Pennsylvania State University, Cooperative Extension Service, College of Agriculture, University Park, Pa. 16802.

NOW... BEAUTIFUL GREEN LAWNS ALL YEAR LONG

REGARDLESS OF WEATHER, TEMPERATURE OR ACTUAL CONDITION OF THE GRASS WITH FIELD PROVEN* STAYZ-GREEN

STAYZ-GREEN banishes brown unsightly lawns forever, keeps lawns looking naturally green and beautiful 12 months out of the year — despite the weather, temperature or the condition of the grass.

Simply spray new Stayz-Green onto lawns with any pressure sprayer — brown, off-color grasses turn a deep, rich, healthy-looking green hue instantly — and keep looking that way all season long, with a single low cost application. A natural pigment color, Stayz-Green penetrates grasses right down to the soil line, won't wash or

fade away in rain or snow and won't harm healthy lawns or shrubs.

New Stayz-Green permits grass to "breathe", does not retard growth. It's ideal, too, as a winter treatment on dormant grasses, especially Bermuda and Zoysia.

One gallon of new Stayz-Green concentrate makes 16 gallons of spray, covers 6400 square feet; five gallons of Stayz-Green makes 80 gallons of spray; covers 32,000 square feet.

Prove Stayz-Green to yourself without cost or obligation. Write today for literature and test sample.
