

Get a Kemp to Shred, Grind, Pulverize

There's a KEMP Shredder for your most demanding shredding assignment.

For top soil producers, there's the King Kemp, above, that shreds up to 101 cu. yds. of wet or dry soil an hour—gives fine, aerated, rubble-free, stone-free soil.

KEMP Shredders are used to shred mulch for roadside maintenance.

Park and golf course superintendents look to KEMP for shredding sod, phosphate rock, peat, brush, palm fronds and other matter for waste disposal and use as fertilizers.

There's a Kemp for Every Use

Kemp shredding capacities range from 4 cu. yds. up to 101 cu. yds. an hour. Kemp model 8-OX above, shreds 12 cu. yds. an hour.
