

talk by J. D. Vertrees, county agricultural agent from Roseburg, Ore., and one of Oregon's outstanding entomologists, who will show some remarkable color slides while discussing the insect aspects of spraying.

The business meeting of the Northwest Spraymen's Association and election of officers will round out the meet. A. J. Overton, of Portland, is directing arrangements for the '66 Spray-O-Rama. He can be contacted at 7737 N.E. Killingsworth, for eleventh-hour registration.

### Oct. 4-5 Fla. Turf Meet to Stress Soils, Fertilizers

Recommendations for improving soils and using fertilizers are to open this year's University of Florida Turfgrass Management Conference, Oct. 4-6, at the Ramada Inn, Gainesville.

Four professional workshop sessions will discuss problems in special areas of turf management on the second day. Participants will tour University of Florida research plots and the final technical session will discuss practical applications of research findings. Nearly 500 registrants are anticipated. Walter Anderson, FTGA executive secretary, can be contacted for further information at the FTGA Offices, 4065 University Blvd., North, Jacksonville, Fla. 32211.

### Dow Cautions Tordon Users

Users of the recently introduced Tordon are cautioned by its maker, The Dow Chemical Co., to follow label instructions carefully when applying the herbicide. Misapplication can kill desirable plants, Dow emphasizes.

While the manufacturer reports excellent control of most deep-rooted perennial weeds, it warns that Tordon sprays should not be allowed to drift onto cropland or into irrigation water or ditches. Tordon should not be used by inexperienced applicators, nor should users deviate from label recommendations. Tordon is said to be 20 times as powerful as 2,4-D. Dow adds, "if it is used incorrectly, a lot more damage can be done."

# PLATZ

## For EFFECTIVE Weed and Pest Control

Whether you need a motor-driven atomizer or a plunger sprayer, there's a Platz model to do your job best. Motor-driven models can be used as sprayers or dusters without changing the plastic tanks and have flame-throwing lances for burning weeds or thawing. You can't find greater efficiency or more versatility at a lower price.

**2-HP PLATZ**—\$149.50 F.O.B. Youngstown. Weighs 15 lbs. 2½-gallon tank. Horizontal range 26 feet, vertical 20 feet. Throttle controls stepless dusting rate. Sprayer has 4 delivery speeds.

**3-HP BOSS**—\$239.50 F.O.B. Youngstown. Weighs 30½ lbs. 2½-gallon tank. Horizontal range 46 feet, vertical 30 feet. Has long range nozzle and twin nozzle for simultaneous spraying of two rows.

**FRANKONIA**—\$69.50 F.O.B. Youngstown. Weighs 20 lbs. 4-gallon tank, made of heavy-gauge sheet brass. Powerful brass pump. Robust suction filter. Self-cleaning valves.
