

THE PRECISION IN
**FITCHBURG
 CHIPPERS**
 means more money for YOU

New brochure will help you get your appropriation for a Fitchburg Chipper

See for yourself all the ways rugged, precision-engineered Fitchburg brush chippers excel in economy, safety and convenience.

See close-ups of the 6 exclusive features that make Fitchburg the chipper of choice for those who are interested in long term, trouble-free brush chipper operation...not just price.

Note the spring-activated feed plate—the chipper "heart." No other chipper has the patented feature that adjusts to the size of the wood up to the machine's rated capacity. Chipping is smoother, quieter, faster.

Compare other Fitchburg features—its rugged construction, safety stop-switch—large hinged waist high feed apron, Solenoid switch*, and patented quick-opening two-way chute*.

After you have studied the brochure, should there be any questions, call Area Code 617 DI 3-7416 and let us arrange a demonstration. Have your Committee watch this chipper in action.

They will sell themselves. Take the first step now. Write for the brochure.
