The Cover

High costs of maintenance are helping push the trend in cemetery design to the memorial park garden type. The cover picture is of Resurrection Cemetery, Lenexa, Kans., maintained by the Wayne Jenicke family and other employees. By clustering design elements and using ground-level markers, bigger power equipment for mowing and applying chemicals can be used. Darrell Huntington, operating an 88-inch Heckendorn rotary, is getting instructions from Wayne Jenicke, superintendent. A story about Jenicke's maintenance practices begins on page 6.
