

This W-W Grinder heavy-duty Model 4-EV features a detachable elevator. It has a 36x52-inch hopper, loads up to truck heights of 7½ feet and has a 20-cubic-yard-per-hour capacity. It is powered by a 9 hp @ 3200 rpm Briggs & Stratton engine.

dig plant, expanded several times, now is in the midst of a huge industrial park.

As the company neared its 30th anniversary, the Lindigs decided to try to find the first machine sold. Records indicated the small shredder went to a nursery in the area.

"I visited the nursery hoping at

best to reclaim the rusted remains discarded somewhere on the grounds," Lindig said. Instead, the owner took him out back to where the unit was still on the job.

Lindig Mfg. gave the nursery a new shredder, then renovated the first machine to display it in the lobby of its new office addition.

BOOK REVIEW

THE CARE AND FEEDING OF TREES by Richard C. Murphy and William E. Meyer, \$5.95, Crown Publishers, Inc., 419 Park Avenue South, New York, N. Y. 10016.

Smaller tree companies and nurseries that do not have a formal training program will find this book is valuable as a basic text for the new and untrained employee.

The book actually is directed to homeowners, but content is comprehensive enough to carry the reader a long way toward becoming a knowledgeable treeman. Experienced tree specialists will find the 60 pages of charts a good reference. Included are charts on standards for nursery grown trees, tree sizes by maturity, rate of growth, bearing ages of fruit trees, diagnosis and prevention of common insect and disease problems, and others. Some 30 pages are devoted to tree identification, including a

four-page, full-color leaf chart for 55 varieties of U. S. trees.

Chapters deal with the value and makeup of trees, landscaping hints, planting, pruning, cabling, cavity repair, soil characteristics, fertilization, and pest and disease control.

Most chapters end with a "do and don't" review and a list of safety tips.

Richard Murphy is a tree-care specialist, having begun his experience as a boy working in the nursery his father managed. He studied at the F. A. Bartlett School of Tree Surgery and gained practical experience as a tree surgeon, landscaper and operator of his own tree-care business.

William Meyer, a journalist and currently director of public relations for the Community Corporation, has helped to present the book in language that laymen can understand. Meyer met Murphy 12 years ago as a homeowner with "tree problems" who had sought the advice of an expert.

UNIVERSAL

Improved Wheel Pump Sprayer

It pumps as it's pushed!

For Turf Care!

One of the handiest sprayers a professional can own. Ideal for jobs too small or too irregular for power equipment. Sprays either a 48" wide or 24" wide swath. Unique rubber wheel-pump "milks" out solution as you push the sprayer. Improved model reduces pulsations for smoother spray pattern. Lays down a heavy residual spray. For killing weeds. Fungus control. Insect control. Turf grubs. For fertilizers, too. Safe. Sure.
