## The Cover

Mogren Bros. of St. Paul are building an 18-hole championship golf course that will require about 6,000 cubic yards of specially mixed soil for greens. The brothers, also sod producers, are using a Lindig CL-75 shredder with screener. The unit processes 75 cubic yards per hour. Lindig makes models with capacities of up to 200 cubic yards per hour. Lindig claims it has the only unit that combines in one machine the functions of shredding, mixing, aerating, elevating, screening, and high discharge. Rene Belland, golf course contractor, is on the crawler tractor. Read more about the uses of soil shredders beginning on page 6.

WEEDS TREES AND TURF is published monthly by The Harvest Publishing Company. Executive, editorial: 9800 Detroit Ave., Cleveland, Ohio 44102.

Single Copy Price: 50 cents for current issue; all back issues 75 cents each. Foreign \$1.00.
