

Business editors watch the hook-up of the new Myers tractor-mounted "Mitey-Mist" PTO air sprayer. It's designed for orchards, high density plantings, vineyards, turf, and field crops. Both dilute and concentrate sprays can be handled in either liquid or wettable powder form.

Myers' progress. The company, in addition to selling in every state, "services 50 countries monthly and 85 yearly," reported Bob Casciani, director of the international department. "At one time or another, we've served every country in the world."

In addition to its century of pump innovating and production of power sprayers, since 1890, Myers other product lines are water conditioning, water systems and hydraulic cleaners.

"We're looking forward to a bright future; we don't see a 'dog' in the bunch," said Barnes. "We've doubled sales in the past 10 years. We had better double sales in the next 10—or there will be someone else up here saying hello."

still do."

Though the latest of eight Myers trademarks has dropped it, a Jack-and-Jill drawing of the first "better product" is still used. The drawing shows Jill knocking off Jack's hat with a continuous stream of water. The symbolism is tied to the double-acting pump that P. A. Myers (brother of F. E.) invented that

revolutionized the pump industry.

P. A. Myers' pump delivered water in a solid steady stream, whereas previous pumps delivered in spurts. This invention brought the first of more than 1,000 Myers patents. More than 100 are still in force, 84 are active, and 10 more are pending.

The continuous stream of that first patent is symbolic also of
