

Seminole Nurseries, Seminole.

The Reasoner Tropical Nurseries of Bradenton (Florida's oldest nursery) yearly presents a silver trophy to an individual with a long-standing service to the horticultural industry; it was presented to Bert Livingston, garden editor, Tampa Tribune.

Most coveted award, the Odenkirk, also given by Butler through the association, was presented to Lawrence W. Clements, Lake Garfield Nurseries of Bartow. He too, is a past president of the FNGA, and was honored for his "services beyond the call of duty" during the past year.

Officers elected at the convention are, Joseph Welker, Duval Landscape Co., Jacksonville, president; Joseph C. Shaw, Shaw Nursery and Landscape Co., Miami, president elect; Richard A. Gladwin, Gladwin Nursery, Jupiter, second vice president, and John A. Blaser, Blaser's Nursery, Tallevant, third vice president.

New directors are: George E. Russell, Russell, Inc., Miami; Robert L. Hartwig, North Florida Landscape Co., Jacksonville, and Raymond Smith, Smith Garden Center and Nursery, Largo.

## Environmental Services Offered By Dow Chemical

A new form of service to industry is being offered by Dow Chemical via its Environmental Control Systems business. Purpose of the venture is to help identify and solve environmental health problems on a custom basis. Dow is offering the service both to industry and government, according to Manager Arnold W. Schaffer.

The new Dow service is programmed to serve three areas of environmental concern: Occupational health and safety, directed toward evaluation and control of occupational hazards in industry; Community pollution, oriented toward the public health aspects of environmental pollution; and Product safety, designed to provide expertise in assessing and evaluating toxicity, safety and other environmental effects of new and existing products.

The company with its size and experience in the field has a large reservoir of professional skills and experience in a variety of scientific fields among its personnel.

Specifically, the service is expect-

ed to cover such areas as industrial hygiene, safety, air and water quality, laboratory analysis, noise control, engineering, toxicology, consulting, education and training, contractual operation, testing and inspection, management in solid and liquid wastes, and information.

Headquarters will be Midland, Mich.

## Fanny Flag Is Official Emblem

Ag-Tronic, Inc., Hastings, Neb., has named their slow moving vehicle emblem Fanny Flag. Now generally standard for farm equipment or other slow moving vehicles on the highway, Ag-Tronic reports its new version is 40 percent more reflective.

The company says the Fanny Flag emblem is now clearly visible for more than a quarter mile, either day or night. During daylight, the fluorescent orange triangle in the emblem's center serves as a warning to motorists. At night, the reflective red border identifies the slow moving vehicle.

**SAFETY TEST  
HEAVY DUTY**

# WOOD/CHUCK®

## 12 & 16 inch CHIPPER

### FIRST IN PERFORMANCE, ECONOMY, SAFETY

**See the WOOD/CHUCK  
Demonstrated at the  
International Shade Tree Conference**

Okay. But what puts Safety Test Wood/Chuck in a class by itself where chippers are concerned? Just superior performance, economy and safety.

First, there's less down-time for blade adjustment and replacement. The Wood/Chuck's blades lock into the rugged rotor and automatically position properly. This takes just minutes for a Wood/Chuck but often requires hours with other chippers. Wood/Chuck's blades are "V"-grooved for full length support that means extra safety. And where most "chippers" blades are so positioned that chips are actually crushed away . . . the Wood/Chuck's shallow blade angle slices chips away. Goodbye friction, wasted energy and vibration; jobs go faster, fuel goes farther.

Only the Wood/Chuck has really been built from the ground up as a chipper for heavy-duty use. It's modern, functional, no-nonsense design sets it apart. Above all, the Safety Test Wood/Chuck has that built-in Safety Test "Extra Measure" of dependability. You can rely on it to do a full day's work . . . day after day, year after year. Frankly, there are dozens of reasons why no other chipper compares with the Wood/Chuck. You owe it to yourself to get the full story from your Wood/Chuck representative or write Safety Test & Equipment Co., Inc., P.O. Drawer 400, Shelby, N. C. 28150.
