

Riggin' buddy.

Tree Surgeon Invents Device for Safe Tree Work

A veteran tree care man, Howard F. Harvey, Jr., has invented a light-weight, compact device which almost eliminates complicated knot work for tree surgeons and riggers.

A special 2-ring slide is used to guide ropes for rigging, overhead lifting, etc. A flat nylon strap (6000

Golf Course Scholarship — Donald R. Viands (right) of College Park (Prince Georges County) gets a close-up of perpetual honor plaque on which his name has been inscribed as one of two 1971-72 winners of \$500 agronomy scholarships sponsored by the Maryland State Golf Association. Holding the plaque is Dr. H. Palmer Hopkins, director of student aid at the University of Maryland.

pound test) conforms to and grips securely any shape or texture surface. A special safety belt knuckle can be released with one hand even when under tension. No knot, Harvey says, will do that.

The device can be used to hook up a pulley or hoist any place, for

quick tieup and release for a boat, for rope guide in any rigging operation, for quick hookup and release in material handling and jobs of like nature. Retail price is \$17.98 from Product Development International. (For additional information, circle reader card No. 718).

Bulk Shipping In A Package! HANDLE-SHIP-STORE "CONTAINERIZED" BULK FERTILIZER IN TAICON® PVC COATED BAGS

TAICON "Super-Sacks" are reusable bucket-shaped bags of PVC coated polyester fabric that protect contents from contamination or weather, in or out of plant. Many in use 8 years. Guaranteed 2 years.

- Collapsible & Reusable
- Tare weight lightest
- 1-man top loading;
1-man emptying
- Portable "warehousing"
indoors or out
- 7 to 88 cu. ft. capacity

Handle "Super-Sacks" with fork-lifts for easy loading of trucks, rail cars and barges. Write for the BAG Corp. brochure on the "Super-Sack" spreader.

We never tire of hearing our customers brag. . . .

. . . about how much better and more economical our chippers are than anything else they've used.

Of course, we design and build them that way. The heart is the 300-pound flywheel and high-speed, tapered blade which chew smoothly, inexorably, through the work material with the safe flexibility that only Asplundh's special engineering features can provide.

Don't take our word. Ask for the specifications brochure "Asplundh Chippers to Fit Your Need" and for a free, no-obligation demonstration. You'll see why an Asplundh Chipper is best for you . . . and as good as you'd expect from the world's largest tree expert company.
