EDITORIAL (continued from page 4)

Alaska, Connecticut, Indiana, Iowa, Maine, New York, Oregon and New Jersey. Agriculturally oriented administrators can not and should not be expected to speak for the professional applicator on every interpretation of the law. The applicator must speak for himself and his organization.

In the State of Washington, the governor appoints, among others, three licensed applicators to sit on the Pesticide Board. Likewise, Kansas' 13 member pesticide board acting in an advisory capacity, includes both a custom ground applicator and custom aerial applicator.

History has proved that without representation, laws become superficial and anarchy reigns. We urge state administrators concerned with use and application laws to look favorably to the addition of a certified professional applicator to the pesticide board. The consequences of ignoring this issue could be tantamount to another Tea Party.
