

## WSSA Meeting Scheduled For Las Vegas Feb. 12-14

A varied, informative program and all the entertainment the "Convention Capital of the World" can offer are both set to welcome those attending the annual meeting of the Weed Science Society of America.

The meeting is set for Las Vegas' famous Caesar's Palace on February 12-14.

A special feature of this year's session will be the initial meeting of the new Turf and Ornamentals Section of the Society. A program organized by Chairman Al Turgeon will be presented.

The meeting this year promises to be of value to a wider audience than ever — including researchers, extension personnel, and agri-businessmen. Special emphasis panels featuring outstanding speakers have been set up to provide information for these groups with a need for a particular kind of knowledge about the industry and science of weed control.

Featured speakers will include Dr. Hans Gysin of Ciba-Geigy Corporation, Basle, Switzerland, who will speak on international weed control

problems; Dr. James R. Hay of the Regina Saskatchewan Research Station speaking on "Gains to the Grower from Weed Science"; Dr. W. A. Harvey, University of California, on challenges ahead in weed science.

Keynote speaker is Secretary of Agriculture Earl L. Butz.

Panels will discuss the state of integrated pest management, biological control of weeds, and pesticide safety. R. C. Ferguson, executive secretary of the National Agricultural Marketing Association, will also be a speaker during Wednesday's industry session.

Rounding off the meeting are other presentations on aquatic weed control, teaching and extension work, as well as a full program featuring some 60 papers on physiology.

In all, more than 500 papers by 250 different authors will be presented.

This year's session will be open to more interested persons than ever before through a new associate WSSA membership now available. The new classification is designed for anyone interested in weed science — chemical dealers or distributors, custom applicators, grounds maintenance managers, agri-fieldmen, regulatory
