# 1974 Managers Guide To Equipment And Supplies

Making the right decision in selection of equipment and supplies is one of the most important jobs of a manager in the Green Industry. Besides being an important item on an investment budget, equipment must also be maintained. This calls for wise initial selection, correct accounting procedures for depreciation, effective preventive maintenance and proper major maintenance when needed.

Perhaps the most important step is in selection. It is with this in mind that WEEDS TREES AND TURF presents this 1974 Green Industry Managers Guide To Equipment And Supplies.

The Guide is in two parts. Manufacturers and their equipment and supplies are listed first. **Advertisers are in bold face type.** Product groupings and manufacturers of a particular item are listed second. Because manufacturers add and delete product lines, change names and generally never remain static, omissions of certain manufacturers and/or product lines are unavoidable. Your comments and suggestions are invited to help improve future editions.

# One Manhandling

**Load ...**

**Elevate ...**

It's easy with Trailelevator.

**Go ...**

The hydraulic elevating trailer that lowers to ground level for fast 'roll-aboard' loading—then lifts its own load to hauling position in just seconds. Handles loads up to 3,000 lbs., lifts and lowers without uncoupling from the towing vehicle. Standard trailer hitch quickly attaches to car, truck or tractor. Try a one-man Trailelevator. It'll make you a one-trailer man.

Magline, Inc., Pinconning, Mich. 48650, P.O. Box 1512
