

50 Years and on the GROW

ISTC Convention Set for August

"Fifty Golden Years and Growing" is the theme of the fiftieth anniversary convention of the International Shade Tree Conference, August 18 to 22. This year's convention headquarters are at Atlanta, Georgia (Atlanta Marriott Motor Hotel).

Some 900 delegates attended last year's convention which was held in Boston. A record-breaking crowd is expected to be on hand for the golden anniversary convention.

Registration is \$65 for the educational program (including social events), \$45 for the ladies' program,

and \$28 for the youth program. Lodging at the hotel costs \$28 for a single room and \$36 for a double or a twin.

A hall in the hotel will be devoted to exhibits and displays, and there will be field demonstrations at the all-delegate event on Tuesday, August 20.

Sunday, August 18:

Morning:
Registration
Chapter presidents and past presidents meetings

Afternoon:
Executive committee meeting

Monday, August 19:

Morning:
Registration
Official opening, address by President F. Lewis Dinsmore

Afternoon:
"Half-century with trees and their friends," Dr. Paul E. Tilford
"Control of water loss in shade trees," Dr. Theodore Kozlowski and Dr. W. J. Davies
"A review of the major tree diseases of the century," Dr. J. C. Carter
"Fifty-two years of tree work," A. E. Price

Evening:
Hospitality party

Tuesday, August 20:

Morning:
"Virus and mycoplasma diseases of shade and ornamental trees," Dr. D. N. Agrios
"New directions and developments in shade tree entomology," Dr. William Wallner
"Trees in the landscape — a look beyond the obvious," Prof. William R. Nelson, Jr.

Afternoon:
All-delegate event: Stone Mountain Park, equipment demonstrations, southern barbeque and entertainment.

Wednesday, August 21:

Morning:
Business session — Board of Governors Meeting and Committee Reports (open to all delegates)

Afternoon:
"New tree selections," William Collins
"Arboricultural communication," Dr. John W. Andresen and Eric Jorgenson
"Cabling and bracing," Leslie S. Mayne

The Royer Chipper.

It uses a new design concept

- to reduce chipper cost
- to reduce chipper maintenance
- to reduce chipper scream

Model 2640

Royer's new "2600" Series Chippers are designed to be a lot easier on your budget and your ears. They provide an exceptionally fast, low-cost way to convert brush, branches, trimmings and stalks into chips. And, they're specifically designed to meet the needs of small commercial applications . . . are available in both PTO (three-point-hitch for tractor operation) and self-powered models.

The new chippers feature a design that combines a *rotating anvil** with a heavy-duty chipping rotor that also serves as a blower and flywheel. A unique design that delivers high-output, low-maintenance operation. And quieter operation, too. With a lot less "chipper scream" — because of an operating principle that cuts way down on rotor rpm's without cutting down on output.

We believe you'll like everything about our new chippers. Their performance. Their lower cost. Their quieter sound. You can get complete details by requesting literature.

*Patent pending

Here's how it works: As material is placed in the deep-throated hopper, the rotating anvil self-feeds the material to a high-speed chipping rotor. Steel blades, projecting through slots in the rotor, then slice the material into chips for immediate discharge by the integral blower. Very simple, but very different from other chippers.
