## The most valuable turf tool since the ProTurf® Guide to Grasses: The ProTurf Guide to the Identification of Dicot Turf Weeds.

More than 9,000 turf men—professionals, students and laymen—on four continents already know the value of the Guide to Grasses for quickly identifying monocots. This new guide will be just as valuable in the field of dicots.

**PROTURF  
GUIDE TO THE  
IDENTIFICATION OF  
DICOT TURF WEEDS**

Like the Guide to Grasses, the Guide to Dicots is designed to be taken into the field. It's printed on wear-and-tear-resistant paper with a durable leatherlike cover. It fits easily into a shirt or jacket pocket. And because the guide is ring-bound, it will lie flat, allowing easy examination and comparison in the field. You can keep it handy to quickly identify any of 100 varieties of dicots you may come across . . . the guide has them each illustrated and cross-referenced by name and geographic location.

Order your copies of the ProTurf Guide to the Identification of Dicot Turf Weeds now. (And if you haven't yet bought a copy of the Guide to Grasses, now's your chance to buy a complete turf field-library!)
